

Recent Update:

A firm tone was witnessed in Sugar physical markets today in India. Sugar prices were higher in Delhi by Rs.10-20 at Rs. 3630/q. Prices were slightly lower in Kolhapur at Rs. 3350/q compared to previous week at Rs. 3400/qt.

The Union government has approved ethanol projects worth Rs. 3400 crore for Bihar. The ethanol production units in Bihar has increased from 6 to 17 by the center, increasing the ethanol production capacity of 36 crore litres. These 17 units will be set up in 10 different districts across Bihar that are known for production of sugarcane, rice and maize.

Weather Forecast

Thunderstorm accompanied with lightening very likely at isolated places over Coastal Andhra Pradesh & Yanam, Rayalaseema, coastal & south interior Karnataka, Tamil Nadu, Pondicherry & Karikal, Andaman & Nicobar Islands, and Kerala & Mahe. Heavy rainfall at isolated places over Tamil Nadu, Pondicherry & Karikal, and heavy rainfall at isolated places over south Interior Karnataka, and Kerala & Mahe.

Previous Updates:

About 54 sugar mills in Maharashtra have started the cane crushing operation for the 2021-22 season. Till 01st November 2021, sugar mills have crushed 18.35 lakh tonnes of sugarcane to produce 13.32 lakh quintals of sugar. Around 30 sugar mills from Pune and Kolhapur regions have started the cane crushing operations. Total 31 cooperative and 23 private sugar mills have started the cane crushing operation as on 01st November 2021. As per the agriwatch market analysis, about 190 sugar mills had participated in the cane crushing operation last season of which 154 sugar mills have paid 100 percent of the FRP (fair and remunerative price). Around 36 sugar mills are yet to clear the FRP of around Rs. 321.41 crore.

Due to heavy and untimely rainfall in Uttar Pradesh especially in the eastern Uttar Pradesh, yield and sugar recovery are both likely to fall in the 2021-22 season. Also, a higher diversion to ethanol production are likely to result in a drop in sugar production. As a result, Maharashtra is likely to overtake Uttar Pradesh in sugar production this season with good monsoon rainfall and sufficient water availability in the reservoirs in the region. Although ratoon cane availability is higher than plant cane i.e yield per hectare is expected to be slightly lower as compared to previous season in Maharashtra. ISMA has estimated the sugar production (without considering diversion into ethanol) in Maharashtra to be around 122.5 lakh tonnes and around 113.5 lakh tonnes in Uttar Pradesh for the 2021-22 season.

Sugar industry may face challenges for export of sugar during the 2021-22 season. For the 2021-22 season, till 28th October 2021, sugar mills have signed contracts to export 1.5 million tonnes of sugar. But the sugar mills are likely to face 3 key challenges on the way. One Thailand production is expected to be higher this season, second instability in the market in Afghanistan which can affect the India's exports and third, Sri Lanka's shortage of foreign exchange. In the previous season, major sugar export destination for India were Indonesia, Afghanistan and Sri Lanka. (Around 50 percent of the total exports were sent to these countries). Indian sugar sector needs to find new ways to overcome these challenges for export in the 2021-22 season.

Sugar importers from Sri Lanka has urged the government to release an adequate amount of dollars to the banks to import sugar. This will further help to regularize the sugar import and control the sugar price. Earlier, The Consumer Affairs Authority has fixed the prices for white sugar at Rs. 122 per kg and for brown sugar at Rs. 125 per kg. Despite this, sugar is been sold at a higher rate in the market.

According to the Ukrtsukor National Association of Sugar Producer of Ukraine, Sugar output in Ukraine has crossed 562.3 thousand tonnes by crushing 4.20 million tonnes of sugar beet till 23rd October 2021. Around 29 sugar refineries have participated in the sugar beet processing in 2021 season. As per the data released by Economy Ministry, Ukraine is likely to produce 1.4 million tonnes of sugar this season. In the previous season, around 30 sugar refineries had participated in the beet refining season and produced 1.1 million tonnes of sugar.

Government has fixed 22.5 LMT of monthly sugar sales quota for November 2021. The food ministry has allocated 22.5 LMT monthly sugar quota for November 2021 to 558 sugar mills which is same as the quota released during the previous season for November 2020. Government has also gave an extension of 30 days to sell the unsold quota of October 2021. As per Agriwatch, this will create a selling pressure for the sugar mills despite of the festive demand.
