The National Federation of Cooperative Sugar Factories has estimated domestic sugar production to be at 35.24 million tonnes in the 2021-22 season which is around 15 percent higher as compared to the previous season. The sugar production is estimated to increase in Maharashtra at 13.68 MT against the 10.63 MT previous year and in Karnataka to increase at 5.92 MT as compared to the previous season 4.25 MT. Sugar production in Uttar Pradesh was lower in the 2021-22 season at 10.22 MT as compared to the previous season 11.01 MT.

GoI has allotted the monthly sugar sale quota of 21 lakh MT for the month of June which is 1 lakh MT lower from previous year. Consideration of lower sale quota is mainly due to expectation of lower demand with the coming monsoon season.

India is expected to export around 9-10 million tonnes of sugar in the 2021-22 season against the previous season of 7.2 million tonnes of sugar. The lower production in Brazil has increased the demand of Indian Sugar in the international market.
