

Recent Update:

Sugar physical market showed a stable trend today in India. Sugar prices were stable in the Delhi market at Rs. 3520/qtl and in Kolhapur prices went up at Rs. 3350 per quintal.

In anticipation of higher prices, Indian sugar mills are holding sugar exports contract supplies. Export prices have come down by about 3-4% from their peak, after India allowed shipments starting 5th November 22 following a fall in global sugar futures prices.

As of 12th December 2022, Gujarat sugarcane sowing has reached 1,04,291 hectares for the 2022-23 season which is lower compared to the previous season's sowing of 1,69,859 hectares. The normal area (past three years average) was around 2,09,854 hectares.

Sugarcane farmers from Nizamabad are demanding an increase in the crushing capacity of the sugar mill. The sugar mill is crushing around 28,000 to 30,000 quintals of sugarcane per day. Farmers are demanding to double the crushing capacity to utilize the surplus sugarcane in the area otherwise they have to sell it to local crushers and jaggery units.

Weather Forecast

Heavy rainfall at isolated places over Nicobar Islands. Dense fog at isolated places over Himachal Pradesh.

International Market Updates:

Sugarcane crushing in the Center-South region of Brazil has increased in the second half of November 2022 as compared to the previous season around the same time. The sugarcane crushing was around 318.75% higher at 16.23 million tonnes in November 2022. Sugar production has increased by 532.3% to 1.03 million tonnes while ethanol production was 887.26 million litres higher by around 148%.

According to National Sugar Administration, about 20 sugar mills have resumed operation and the prices of sugar are likely to come down in the first quarter of next year in the Philippines. Despite the import of 150,000 metric tonnes of sugar and the start of the harvesting season, the prices of refined white sugar continue to remain high at (Philippines peso) P90 to P100 per kg. Majorly the supply has been affected in the Philippines market along with improved demand.

Jaggery:

As per market sources, sugarcane farmers are demanding the government to make a policy for jaggery units so that farmers would not get exploited as few jaggery makers are procuring cane at lesser rates than State Advised Price in Haryana. The Haryana government has fixed the SAP of sugarcane at Rs. 362 per quintal and is yet to fix the SAP for the current season.

AgriWatch estimates, Jaggery prices to trade weak in the domestic market despite improved winter demand in December month. The increase in supply activities have resulted in prices being weak.

Kolhapur: Jaggery auction has stopped in Kolhapur Agriculture Produce Market Committee (APMC) during the week under review as prices had again dropped sharply. The jaggery-making farmers had refused to sell their produce unless the trader agreed to pay at least Rs. 3,700 per quintal for jaggery. However, as per sources the jaggery auction will resume in the coming week. The larger quantity of supply and the low demand across the country has led to a drop in jaggery prices. Further, prices in the coming week are expected to rise as with the decreasing temperature jaggery demand is expected to improve.

Jaggery Price at Kolhapur Benchmark Market (Rs./Quintal)		
Forecast Date	Past Week	Week under review
12-Dec-22	4000	4000-4250

Ethanol:

Till 30th November 2022, Ethanol production capacity in India has been increased to 947 crore litres per annum. Molasses-based distilleries have a capacity of 619 crore litres whereas Grain-based distilleries have a capacity of 328 crore litres. According to the Department of Food and Public Distribution, the capacity covers the need for ethanol blending with petrol as well as other industrial uses of ethanol in the country. Around 228 ethanol projects have sanctioned loans of more than Rs 18,500 crores from banks. Out of the loans sanctioned, more than Rs 9000 crores have been disbursed to the 196 Projects.

The Oil Marketing Companies (OMCs) have so far allocated around 460 Crore litre for supply in Ethanol Supply Year (ESY) 2022-23 (against the first 2 EOIs). The OMCs have floated a third EOI for the requirement of additional 139 crore liters, for which the last date of submission was 30th

November'2022. The OMCs are currently examining the bids and are expected to do the allocations shortly.
