The National Federation of Cooperative Sugar Factories (NFCSF) has estimated that around 515 sugar mills across the country have produced 160 lakh tonnes sugar till 15<sup>th</sup> January 23 which is about 10 lakh tonne higher than the corresponding date of last year. ### International Market Updates:

The red rot disease was detected in the Sugarcane crop of Parsa and Bara region of Nepal. Farmers are planning for a early harvest of the crop to prevent infection from the crop. Also, the farmers are selling crops on the prices which mills are offering as the government has not yet announced the minimum support price for sugarcane.

The Economic Coordination Committee (ECC) Pakistan, has granted permission to export an additional 150,000 tonnes of sugar. The decision was taken based on the recommendations of the Sugar Advisory Board (SAB). The ECC has allowed the export of a total of 250,000 tonnes of sugar out of which it had already approved the export of 100,000 tonnes of sugar on 15<sup>th</sup> Dec. 2022. The export would be allowed to sugar mills on a first-come-first-served basis.

### Jaggery:

As per AgriWatch sources, Jaggery-making units in Uttar Pradesh are working on a lower scale as winter season will end in coming 1-2 months, along with it there is enough stock available in the market.

The Karnataka government is planning to provide an industry tag on jaggery. Consumption of jaggery is likely to increase as the focus on sustainable lifestyle increased. India is the biggest exporter of jaggery and Karnataka is the third largest cane producer which can give an advantage to the state to increase jaggery production.
