

**Recent Update:**

**Sugar physical market showed a stable trend today in India.** Sugar prices in the Delhi market at Rs. 3425/qtl and Kolhapur market reported at Rs. 3275 per quintal.

- India is not likely to allow additional export of the sweetener than the allowed export of six million tonnes (mt) for the ongoing sugar season.
- Over 35 lakh tonnes (lt) of sugar have been dispatched by sugar mills to ports and refineries in special economic zones (SEZs) for exports in the current season (October 2022-September 2023).
- According to the All-India Sugar Traders Association (AISTA), 27.83 LT of sugar have been physically exported out of the 35.87 LT dispatched by the mills.
- While 3.7 LT have been delivered to refineries in SEZs, considered as deemed exports and the remaining 4.24 LT is either being loaded or waiting to be loaded onto vessels.
- Bangladesh and Indonesia are the top buyers of Indian sugar purchasing 2.70 LT and 2.61 LT, respectively. Djibouti has imported 2.47 LT of Indian sugar, while Somalia has bought 2.46 LT.
- The United Arab Emirates follows next purchasing 2.06 LT, Sudan has bought 1.66 LT and Saudi Arabia 1.65 lt. Malaysia, Sri Lanka, China (1.12 LT), Iraq, Afghanistan and Cameroon are other significant importers of Indian sugar.

### International Market

- Sugar prices in the global market are likely to remain higher around 19-22 US cents a pound for raws (RS 33.075-40.375 a tonne) due to lower production of the commodity in India and the European Union.

- According to the trade sources, the situation would remain the same despite an increase in sugar production in Brazil and Thailand.
- Sugar export from Thailand is expected to increase by 17% to 9 million tonnes in the 2022/23 production year compared to the last season. Thailand is expecting to produce 11.5 million tonnes of sugar by crushing 106 million tonnes of cane by the end of this season. Sugar output in Thailand was 10.15 million tonnes in 2021/22. The increases in global prices and sufficient rainfall has boosted the sugarcane production in the country. The sugar mills had crushed 92.07 million tonnes of cane and had exported 7.69 million tonnes of sugar. The domestic consumption of sugar is around 2.5 million tonnes in the country.
- Sugar production in Brazil is expected to increase by 7.6% to 38.1 million tonnes (mt) this season. Fitch Solutions Country Risk and Industry Research states that sugar prices would continue to remain higher over a lower supply of sugar in various parts of the globe. Sugar supply from the new crop might disappoint as the sugar stocks are low at present.

### Weather Forecast

No cold wave and no dense fog conditions very likely over the country during next two days.

### Jaggery:

As per AgriWatch sources, Jaggery-making units in Uttar Pradesh are working on a lower scale as winter season will end in coming 1-2 months, along with it there is enough stock available in the market.

The Karnataka government is planning to provide an industry tag on jaggery. Consumption of jaggery is likely to increase as the focus on sustainable lifestyle increased. India is the biggest exporter of jaggery and Karnataka is the third largest cane producer which can give an advantage to the state to increase jaggery production.

### Ethanol:

Sutlej Organics and Chemicals is planning to set up an ethanol plant having a capacity of 120 klpd at Jehan Kela and Bassi Mustafa in the Hoshiarpur district of Punjab. The proposed project spread over 21.62 acres of land will also include a 2.5 MW co-generation plant.
