

Domestic Market Highlights

Recent Updates:

In a notification issued on 28th October 2022, the food ministry has allocated higher monthly sales quota of 22 Lakh MT (LMT), compared to 0.5 LMT lower allocated during November 2021. During the previous month government allocated 23.5 LMT quota. As per market sources, sugar prices in the first half of the month are likely to remain supportive and range-bound in second half of the month as more new sugar starts flowing into the domestic market.

The sugarcane crushing season has been affected due to heavy rains in Maharashtra during the last few weeks. As per the traders and millers, sugarcane crushing is likely to start with full capacity by 10th November 2022. As Transportation labor would come after Diwali celebrations and by that time weather will also become favorable for harvesting and crushing.

Around 203 sugar mills are likely to participate in the cane crushing operation out of the total 246 sugar mills in the state. So far 73 sugar mills had taken permission for cane crushing in the 2022-23 season. The estimated sugarcane production in the state may reach 1,343 lakh tonnes against 1,321 lakh tonnes in the 2021-22 season. The sugar production may rise to 138 lakh tonnes against 137 lakh tonnes during the previous season.

Sugarcane crushing season is likely to start next month in Haryana. The sugarcane farmers in Haryana are still waiting for the government to announce State advised price (SAP) for the 2022-23 season. As per market sources government may release the SAP during first week of November 2022.

As per AgriWatch Sources, In Uttar Pradesh too, crushing operations will commence after 25th October 2022.

Indian Sugar Mills Association has revised its sugar production estimate for the 2022-23 season. ISMA has estimated sugar production at 365 lakh tonnes for the 2022-23 season which was 354 lakh tonnes estimated previously.

Sugar Exports:

According to the Directorate General of Foreign trade, the department has extended restrictions on sugar export for one year up to 2023. The Central government extends the date of 'Restriction' on export of sugar (Raw sugar, Refined sugar, and White sugar) under HS codes 1701 14 90 and 1701 99 90 beyond 31st October, 2022 till 31st October, 2023, or until further orders, whichever is earlier. This restriction is not applicable to sugar being exported to EU and USA under CXL and TRQ quota. The other conditions will remain unchanged.

Earlier, to maintain the domestic availability and price stability of sugar, the government brought restrictions on sugar exports with effect from 1st June, 2022 till 31st October, 2022. Government shall allocate quota to the mills for export. As per market sources, India has contracted around 2.3 million tonnes

of sugar of new crop prior to announcement of quota. India is expected to produce record sugar crop this year, which could allow exports of up to 8 million tonnes in the 2022-23 season. AgriWatch expects sugar exports of around 7.5 million tonnes in the 2022-23 season.

Source: ISMA

Price Outlook:

- The average sugar prices were slightly lower at Rs. 3,516 per quintal during the past week from Rs.3,520 per quintal in Delhi market. Whereas, sugar prices in Maharashtra were higher at Rs.3381 per quintal.

Price Projection for the Next week

The average prices for Sugar 'M' grade in key Kolhapur market remained stable at Rs.3400 per quintal during the week under review. Sugar prices in Kolhapur market are further likely to range between Rs. 3450- Rs. 3550 per quintal in the coming week. Owing to Diwali, Bhai Duj, Govardhan puja etc., both the demand and supply was subdued in the market which mainly attributed to the stable prices last week.

Ethanol:

According to the Department of Food and Public Distribution, about 61 ethanol projects will be approved for the coming 2022-23 ethanol season. As to improve the ethanol production capacity by 257 crore litres by 2023. The government is highly active to achieve the 20 percent ethanol target by 2025.

As per the Uttar Pradesh government, the state's ethanol capacity is pegged at 2 billion liters per annum. The ethanol capacity is expected to touch 2.25 billion liters per annum in coming years. In the current 2022-23 sugarcane crushing season, 5 private mills will directly manufacture ethanol from sugarcane juice without producing sugar. Besides 71 other mills who will produce ethanol from B-heavy molasses.

According to the market sources, the center may hike the ethanol purchase price by Rs.2 per liter for the 2022-23 season (Dec-Nov). According to the Ministry of petroleum and natural gas, the government has achieved 10.3% ethanol blending in petrol as of September 2022, ahead of the November 2022 deadline. Earlier, during the 2021-22 season, the government increased the procurement price of all three categories of ethanol produced from different sources by 1.27 to 2.55 percent. (To achieve 20 percent blending by 2025, India needs 10.2-11 billion litres of ethanol.

Note: Brazil Ethanol production has increased by 2% to 2.12 billion litres till the first half of September 2022.

Source: USDA; Unit: Lakh Tonnes

The Center south region of Brazil is set to recover its sugar production to 36 million tonnes from previous estimate of 33 million tonnes in 2022-23 season. The sugar will hit the global market by May 2023, the freight rates have also fallen which will further help in higher exports from Brazil.

Both Thailand and India's sugar production is expected to increase in the 2022-23 season. Sugar production may increase to 10.5- 11 million tonnes in the 2022-23 season. India's sugar production is expected to increase to 36 million tonnes as compared to 30 million tonnes in 2021-22 season.
