During the past week, around 93 sugar mills had started cane-crushing operations in Maharashtra for the 2022-23 season. Earlier, sugarcane crushing was delayed due to heavy rainfall. Around 215 sugar mills are likely to participate in the cane crushing operation during the 2022-23 season as compared to the previous season 205 sugar mills in the 2021-22. The price of advanced, medium, and late-quality sugarcane has increased to Rs 380 per quintal, Rs 370 per quintal and Rs 365 per quintal respectively.

Sugar Exports:

Government of India has released sugar export policy for the 2022-23 season. As per GOI, to prevent uncontrolled export of sugar and with a view to ensure sufficient availability of sugar for domestic consumption at a reasonable price, GOI has decided to allow export of sugar up to a reasonable limit w.e.f 01.11.2022 to 31.10.2023.

- All grades of sugar i.e. raw, white as well as refined sugar can be exported by a sugar mill / refinery / exporter up to the extent of 60 LMT allocated.
- All the sugar mills have been allocated a uniform export quota of 18.23% of their 3 years average production of sugar in the operational sugar season.
- The new sugar mills which may commence sugar production for the first time during the sugar season 2022-23 or the mills which were closed in previous three season but restart in season 2022-23 or the mills who have not been allocated quota will be allocated export quota of 18.23% of their estimated sugar production in sugar season 2022-23.

According to the Directorate General of Foreign trade, the department has extended restrictions on sugar export for one year up to 2023. The Central government extends the date of 'Restriction' on export of sugar (Raw sugar, Refined sugar, and White sugar) under HS codes 1701 14 90 and 1701 99 90 beyond 31st

October, 2022 till 31st October, 2023, or until further orders, whichever is earlier. This restriction is not applicable to sugar being exported to EU and USA under CXL and TRQ quota. The other conditions will remain unchanged.

Earlier, to maintain the domestic availability and price stability of sugar, the government brought restrictions on sugar exports with effect from 1st June, 2022 till 31st October, 2022. Government shall allocate quota to the mills for export. As per market sources, India has contracted around 2.3 million tonnes of sugar of new crop prior to announcement of quota. India is expected to produce record sugar crop this year, which could allow exports of up to 8 million tonnes in the 2022-23 season. AgriWatch expects sugar exports of around 7.5 million tonnes in the 2022-23 season.

The Government has also advanced the target of 20% ethanol blending in petrol from 2030 to ESY 2025-26.

Raw Material	Ethanol Procurement Price (Rs./liter)				
	2018-19	2019-20	2020-21	2021-22	2022-23

The highest price was for ethanol manufactured from juice or sugar syrup while the one manufactured from C molasses was lowest price. This was done to incentivize the production of ethanol and reduce production of sugar by mills. During the 2022-23 ethanol supply year, India is expected to achieve 12% ethanol blending. Sugar Mills are expected to divert about 45 lakh tonnes of sugar towards ethanol production.
