

Domestic Market Highlights

Recent Updates:

In a notification issued on 30th November 2022, the food ministry has allocated higher monthly sales quota of 22 Lakh MT (LMT), which is comparatively 0.5 LMT higher than the quota allocated during December 2021. During the previous month government allocated 22 LMT quota. Sugar prices are likely to remain range-bound in the domestic market.

The Sugarcane crushing operations are going in full swing across the key producing states of Maharashtra, Uttar Pradesh, and Karnataka. About 90% of the sugar mills are operating currently. As per AgriWatch sources, sugar production is expected to improve in the 2022-23 season mainly due to improved acreages.

As per the Indian sugar mills association, Sugar production in India has reached 47.9 lakh tonnes as against 47.2 lakh tonnes till 30th November 2022. The crushing operations were delayed this year because of rains during late October and early November. The state-wise sugar production is mentioned below:

State	Sugar Production		Mills in Operation	
	(as of 30 th Nov'22)		(as of 30 th Nov'21.)	
	No. of Operating Mills	Sugar Production	No. of Operating Mills	Sugar Production
Uttar Pradesh	104	11.2	101	10.4
Maharashtra	173	20.0	172	20.3
Karnataka	70	12.1	66	12.8
Gujarat	15	1.5	15	1.6
Tamil Nadu	5	1.1	3	0.5
Others	67	2.0	59	1.6
All India	434	47.9	416	47.20

Sugar Exports:

Around 35 lakh tonnes of sugar exports contract have already been signed for the 2022-23 season. Out of which, 2 lakh tonne has been physically exported till October 2022 as compared to 4 lakh tonnes during the corresponding period last year. AgriWatch estimates sugar exports of around 75 lakh tonnes during the 2022-23 season lower from the previous 116 lakh tonne during 2021-22 season.

According to the Directorate General of Foreign Trade (DGFT), around 5,841 MT (raw/refined) sugar is to be exported to European Union and about 8,606 Metric Tonne Raw Value (MTRV) raw cane sugar is to be exported to USA under Tariff rate quota (TRQ) scheme from 1st October, 2022, to 30th September, 2023.

The Indian Sugar Mills Association is expecting that the government may allow an additional 2-4 million tonne of sugar exports for the 2022-23 season. The government earlier approved 6 million tonne of sugar exports for the 2022-23 season. Overall sugar production in India during the 2022-23 season is expected to be 36 million tonne and ethanol about 5 million tonne.

Although, there are rumors in the market that around 45 lakh tonnes of sugar exports contracts are likely to get signed till December'22 by the exporters/millers.

Price Outlook:

The average sugar prices were slightly higher at Rs. 3,526 per quintal during the past week from Rs.3,520 per quintal in Delhi market. Whereas, sugar prices in Maharashtra were lower at Rs.3350 per quintal.

Price Projection for the Next week

The average prices for Sugar 'M' grade in the key Kolhapur market has increased at Rs.3350 per quintal during the week under review. Sugar prices in Kolhapur market are further likely to range between Rs. 3300- Rs. 3450 per quintal in the coming week. The prices had increased mainly due to lower supply and comparative higher demand in the market during the week under review.

International Market Highlights

Sugarcane crushing in the Center-South region of Brazil has increased in the first half of November 2022 as compared to the previous season around the same time. Sugar Mills in the region have crushed 26.34 million tonnes which is around 109.3% higher as compared to the previous season. The sugar production was around 162.2% higher to 1.67 million tonnes in November 2022.

Sugar supply get affected in Bangladesh. Due to energy crisis and disruption in the production (around 50% due to shortage of gas and electricity supply), sugar supply has been affected in Bangladesh. Around 4,000 tonne of sugar per day is supplied in the market against the minimum supply of 8,000 tonne. Due to supply shortage, sugar prices have increased to Bangladeshi Taka (Tk) 110-120 per kg from Tk 85-95 per kg during the previous month. The sugar refineries have urged the government to lower the higher import duties on sugar to resolve the issue.

Sugar prices also saw pressure after the Organization of Cane Producers Association in Brazil forecasted Brazil's sugar output in 2022-23 season at 36.9 MMT due to favorable weather and that production would reach 37.2 MMT in 2023-24 season. As per Unica, Brazil's Center-South sugar output in October was estimated down -3.1% year-on-year basis at 30.281 MMT.

Pakistan Sugar Mills Association has urged the government to allow the export of surplus sugar. The millers are demanding to allow exports of around 60% of the surplus sugar stock else they would delay the crushing for the coming season. (The mills may start the can crushing operation in January 2023)

World Sugar Balance Sheet				
	2022-23	2021-22	Changes in Million tonne	Percentage Change (%)
Production	182.142	172.662	9.480	5.46
Consumption	175.957	174.327	1.630	0.94
Surplus/Deficit	6.185	-1.665		
Import	61.500	62.191	-0.691	-1.11
Export	64.486	62.512	1.974	3.16
Ending stock	99.734	96.852	2.882	2.98

Source: ISO; unit: Million Tonne

The International Sugar Organization, has forecasted that sugar production may increase by around +4.5% year on year basis to a 5-year high of 182.1 Million Tonne in 2022-23 season, as a result, global sugar market would be in a surplus of +5.6 MMT. However, higher sugar output in India is bearish for prices. India's Sugarcane acreages has increased by +5.4% year-on-year basis, and sugar production is expected to increase by +2.9% year-on-year basis to 35.8 MMT.

ICE (Raw Sugar Exchange) Future Market Scenario (Mar'23 Contract)

Technical Commentary:

As depicted in the above chart, market has moved sideways during the last month. Overall trend remains down. Market is further expected to trade sideways in the coming week.

International Sugar Futures Price Projection			
	Contract Month	Present Quote	The expected Price level for next week
ICE Sugar #11 (US Cent/lb)	Mar'23	18.70	17.80-18.25

Jaggery:

Kolhapur: Jaggery auction has stopped in Kolhapur Agriculture Produce Market Committee (APMC) during the week under review as prices had again dropped sharply. The jaggery making farmers had refused to sell their produce unless the trader agreed to pay at least Rs. 3,700 per quintal for jaggery. However, as per sources

the jaggery auction will resume in the coming week. The larger quantity of supply and the low demand across the country has led to a drop in the jaggery prices. Further, prices in the coming week are expected to rise as with the decreasing temperature jaggery demand is expected to improve.

Kerala: Alangadan jaggery is expected to come in market by the year 2024. Sugarcane farming will be done on 20 acres in Alangadan. The Order has also been placed with Sugarcane Breeding Institute Coimbatore to raise sampling which will be planted at Alangad. The planting will start from January next year. The Alangadan Jaggery is also planned for getting the GI tag for the product. The Alangadan jaggery has been used for making Aravana Payasam (Jaggery Kheer) in Sabarimala and for Aranmula.

Jaggery prices are likely to trade higher in the domestic market amid improved winter demand in the December month.

Ethanol:

The Oil Marketing Companies (OMCs) have so far allocated around 460 Crore litre for supply in Ethanol Supply Year (ESY) 2022-23 (against the first 2 EOI). The OMCs have floated a third EOI for the requirement of additional 139 crore liters, for which the last date of submission was 30th November'2022. The OMC's are currently examining the bids and are expected to do the allocations shortly.

The Chhattisgarh government had signed two MoU (Memorandum of Understandings) at the Chhattisgarh Business Summit 2022. The MoU were signed for setting up an ethanol production plant and drone and UAV manufacturing unit.

According to the press release issued by the CMO, an MoU was signed between the state government and Rajesh Gautam of NKJ Biofuel, Durg for setting up an ethanol production plant in the cooperative sector with an investment of Rs 140 crores, while another MoU was inked with Manish Bajpai of Daybest Research Private Ltd for setting up 4500 drone and UAV manufacturing units at the investment of Rs 50.95 crore.

The government has released guidelines for producing ethanol from sugar and grain-based feedstocks in India. According to the new guidelines, the validating agencies will have to send a copy of the validation report to the directorate of sugar and vegetable oils, the department of food and public distribution and the ministry of petroleum and natural gas within a fortnight of undertaking the onsite validation.
