Sugarcane farmers from Nizamabad are demanding an increase in the crushing capacity of the sugar mill. The sugar mill is crushing around 28,000 to 30,000 quintals of sugarcane per day. Farmers are demanding to double the crushing capacity to utilize the surplus sugarcane in the area otherwise they have to sell it to local crushers and jaggery units.

As per market sources, sugarcane farmers are demanding the government to make a policy for jaggery units so that farmers would not get exploited as few jaggery makers are procuring cane at lesser rates than State Advised Price in Haryana. The Haryana government has fixed the SAP of sugarcane at Rs. 362 per quintal and is yet to fix the SAP for the current season.

International Market Highlights

The Pakistan government has granted permission to the Pakistan Sugar Mills Association (PSMA) to export half a million tonne of sugar. The export would bring in \$250 million and the government has stated that the domestic prices will not be affected due to sugar exports. As per the Ministry of Production, Pakistan in the first phase will export around one lakh tonne of sugar. After taking review, an additional five lakh tonne of sugar will be exported in the next fortnight.

Sugarcane crushing in the Center-South region of Brazil has increased in the second half of November 2022 as compared to the previous season around the same time. The sugarcane crushing was around 318.75% higher at 16.23 million tonnes in November 2022. Sugar production has increased by 532.3% to 1.03 million tonne while ethanol production was 887.26 million litres higher by around 148%.

According to National Sugar Administration, about 20 sugar mills have resumed operation and the prices of sugar are likely to come down in the first quarter of next year in the Philippines. Despite the import of 150,000 metric tonnes of sugar and the start of the harvesting season, the prices of refined white sugar continue to remain high at (Philippines peso) P90 to P100 per kg. Majorly the supply has been affected in the Philippines market along with improved demand.

Jaggery:

Jaggery demand in Erode district remained weak despite a month left for the Pongal festival. Around 100 jaggery production units are operating in Mullamparappu, Arachalur, Kavundapadi and Ammapettai areas. The poor demand for jaggery apart from an increase in the labour cost and low price had affected the jaggery producer in Mullamparappu.

As per market sources, sugarcane farmers are demanding the government to make a policy for jaggery units so that farmers would not get exploited as few jaggery makers are procuring cane at lesser rates than State Advised Price in Haryana. The Haryana government has fixed the SAP of sugarcane at Rs. 362 per quintal and is yet to fix the SAP for the current season.

AgriWatch estimates, Jaggery prices to trade weak in the domestic market despite improved winter demand in December month. The increase in supply activities have resulted in prices being weak.

Ethanol:

Government is encouraging sugar mills to divert excess sugarcane & sugar to ethanol production. The government has allowed production of ethanol from B-Heavy molasses, sugarcane juice, sugar syrup and sugar and has also been fixing the remunerative ex-mill price of ethanol derived from various feed stocks.

In current sugar season 2022-23, about 45-50 LMT of excess sugar is targeted to be diverted to ethanol. By 2025, it is targeted to divert 60 LMT of excess sugar to ethanol, which would solve the problem of high inventories of sugar, improve liquidity of mills thereby help in timely payment of cane dues of farmers. In sugar seasons 2019-20, 2020-21 & 2021-22 about 59.60 LMT, 70 LMT & 109 LMT of sugar was exported respectively. As a result of these measures, financial conditions of sugar mills has improved and more than 99% of cane dues upto sugar seasons 2020-21 and 97.40% of cane dues for sugar season 2021-22 have been cleared.
