Jaggery:

Jaggery demand in Erode district remained weak despite a month left for the Pongal festival. Around 100 jaggery production units are operating in Mullamparappu, Arachalur, Kavundapadi and Ammapettai areas. The poor demand for jaggery apart from an increase in the labour cost and low price had affected the jaggery producer in Mullamparappu.

As per market sources, sugarcane farmers are demanding the government to make a policy for jaggery units so that farmers would not get exploited as few jaggery makers are procuring cane at lesser rates than State Advised Price in Haryana. The Haryana government has fixed the SAP of sugarcane at Rs. 362 per quintal and is yet to fix the SAP for the current season.

AgriWatch estimates, Jaggery prices to trade weak in the domestic market despite improved winter demand in December month. The increase in supply activities have resulted in prices being weak.

Ethanol:

Government is encouraging sugar mills to divert excess sugarcane & sugar to ethanol production. The government has allowed production of ethanol from B-Heavy molasses, sugarcane juice, sugar syrup and sugar and has also been fixing the remunerative ex-mill price of ethanol derived from various feed stocks.

In current sugar season 2022-23, about 45-50 LMT of excess sugar is targeted to be diverted to ethanol. By 2025, it is targeted to divert 60 LMT of excess sugar to ethanol, which would solve the problem of high inventories of sugar, improve liquidity of mills thereby help in timely payment of cane dues of farmers. In sugar seasons 2019-20, 2020-21 & 2021-22 about 59.60 LMT, 70 LMT & 109 LMT of sugar was exported respectively. As a result of these measures, financial conditions of sugar mills has improved and more than 99% of cane dues upto sugar seasons 2020-21 and 97.40% of cane dues for sugar season 2021-22 have been cleared.
