

Domestic Market Highlights

Recent Updates:

As per the Indian sugar mills association, Sugar production in India has reached 156.8 lakh tonne as against 150.8 lakh tonne till 15th January 2023. The sugar production is higher by around 6 lakh tonne. The sugarcane crushing season is in full swing and around 515 sugar mills are currently operating in the country against 507 during the previous season.

State	Sugar Production		Mills in Operation	
	(as of 15 th Jan'23)		(as of 15 th Jan'22)	
	No. of Operating Mills	Sugar Production	No. of Operating Mills	Sugar Production

Others	85	13.8	85	12.4
All India	515	156.8	507	150.8

Source: ISMA, Unit: Lakh Tonne

The National Federation of Cooperative Sugar Factories (NFCFSF) has estimated sugar production at 160 lakh tonnes sugar till 15th January 23 across India which is about 10 lakh tonne higher than the corresponding date of last year. However, the average sugar recovery is decreased by 0.14% as compared to the last year's average recovery of 9.64%.

As per the NFCFSF's estimate, the 2022-23 sugar season will be over by the end of April and the sugar production is estimated at 343 lakh tonnes which is expected to be lower by 16 lakh tonnes compared to last year's 359 lakh tonne.

Apart from this, around 45 lakh tonnes of sugar will be diverted to ethanol production. Thus this year, the gross total sugar production will be around 390 lakh tonne.

Sugar Exports:

As per the market sources, the government may take a decision in the coming February month for increasing the sugar export quota from the current 60 lakh tonne. In the current marketing year so far, the mills have dispatched 30 lakh tonnes of sugar for exports and out of that 18 lakh tonnes have already been shipped. As per the food ministry, the entire 60 lakh tonnes will get exported by May. The government is currently assessing the supply and demand estimate in the domestic market along with the actual sugar production.

As per the All-India Sugar Traders Association, sugar exporters, including mills have almost exhausted the 6 million tonne of export quota allocated by the Centre for the current 2022-23 sugar season. Almost all the deals signed till 31st December 22 will be exported by 31st March'22. Also, Iran and Indonesia have emerged as the biggest buyers of Indian sugar this season.

India has exported around 1.692 million tonne of sugar till 4th January 2023, including 59,596 tonne to china. About 147,000 tonnes of sugar was exported to Bangladesh and around 82,462 tonne to Sri Lanka.

Price Outlook:

The average sugar prices were slightly lower at Rs. 3,417 per quintal during the past week from Rs.3,427 per quintal in Delhi market. Whereas, sugar prices in Maharashtra remained stable during the week under review at Rs.3250 per quintal.

Price Projection for the Next week

The average prices for Sugar 'M' grade in the key Kolhapur market was trading stable at Rs.3250 per quintal during the week under review. Sugar prices in Kolhapur market are further likely to range between Rs. 3200- Rs. 3350 per quintal in the coming week. In the Shamli market prices were stable during the last week at Rs. 3420 per quintal. Increasing supply keeping the prices in check in the key domestic markets.

International Market Highlights

China sugar production is likely to be lower in the 2022-23 season at 9.6-10 million tonne. During the previous 2021-22 season sugar production was around 9.56 million tonne. As per the market sources, the sugar production is expected to be lower mainly due to high beet prices in the 2022-23 season. Also, the domestic consumption is estimated at around 15 million tonne which is comparatively lower than the production.

The red rot disease was detected in the Sugarcane crop of Parsa and Bara region of Nepal. Farmers are planning for a early harvest of the crop to prevent infection from the crop. Also, the farmers are selling crops on the prices which mills are offering as the government has not yet announced the minimum support price for sugarcane.

Jaggery:

As per AgriWatch sources, Jaggery-making units in Uttar Pradesh are working on a lower scale as winter season will end in coming 1-2 months, along with it there is enough stock available in the market.

The Karnataka government is planning to provide an industry tag on jaggery. Consumption of jaggery is likely to increase as the focus on sustainable lifestyle increased. India is the biggest exporter of jaggery and Karnataka is the third largest cane producer which can give an advantage to the state to increase jaggery production.

Ethanol:

Chhattisgarh's first ethanol plant is likely to start its operations in April this year. The plant is located at Kawardha, near Boramdev Sugar mill. As per the market sources, the capacity of the plant will be around 80 kilolitres per day at the initial level. The plant will produce ethanol from sugarcane juice during the season and molasses during the off-season. An agreement has been signed between Boramdev Cooperative Sugar Mill and NKJ Biofuel after the global tender. Earlier, The Chhattisgarh government had signed two MoU (Memorandum of Understandings) at the Chhattisgarh Business Summit 2022. The MoU were signed for setting up an ethanol production plant and drone and UAV manufacturing unit.
