

Domestic Market Highlights

Recent Updates:

- Around 528 sugar mills started their operations in the 2022-23 season as against 516 mills that operated last season. Till 15th February'2023, about 61 sugar mills have closed their crushing operations for the 2022-23 season, while 467 sugar mills are still operating in the country.
- During the previous 2021-22 season, around 32 sugar mills had closed their crushing operation and 484 mills were functioning on the corresponding date.
- The Food ministry has allocated higher monthly sale quota for March 2023. About 22 LMT of monthly sales quota has been allocated for March 2023, which is 0.5 LMT higher than the monthly sales quota for March 2022. With the increasing temperature and early summer season, sugar demand is likely to increase in the coming month.

- All India Sugar Trade Association, has revised its sugar production estimate downwards to 33.5 million tonne against 34.5 million tonne estimated earlier for the 2022-23 season. The decline in sugar production is due to the expectation of lower sugar recovery and yield from the key growing states. Domestic Consumption is estimated at 27.5 million tonne and exports of around 6 million tonne.

State-wise Sugar Production Estimate:

States	Season	
	2022-23	2021-22
Maharashtra	11.3	13.7
Uttar Pradesh	10.8	10.2
Karnataka	5.5	6.2
All India	34.5	35.8

Source- ISMA: unit-Lakh tonne

As per govt. 2nd Adv. estimates, the total sugarcane production in the country for the 2022-23 season will reach a record high of 4687.89 lakh tonne, representing an increase of 293.64 lakh tonne from previous year production of 4394.25 lakh tonne.

Sugar Exports:

- With the lower sugar production expectation government is not likely to allow sugar exports further. As per National Sugar Federation Sugar production for the 2022-23 season is likely to be lower by 7% at 335 lakh tonne against previous season 359 lakh tonne. Lower sugarcane yield from Maharashtra and Karnataka has resulted in lower sugar production and poor recovery.
- However, the lower sugar output is not likely lead to a spike in domestic prices this year as the demand for sugar is around 27 MMT per year.
- Over 35 lakh tonnes (LT) sugar have been dispatched by sugar mills to ports and refineries in special economic zones (SEZs) for exports in the current season (October 2022-September 2023).

Price Outlook:

The average sugar prices in Delhi market were stable at Rs. 3,406 per quintal during the past week. Whereas, sugar prices in Maharashtra remained lower at Rs.3255 per quintal during the week under review from Rs. 3275 per quintal. In Shamli market prices were slightly lower at Rs. 3410 per quintal as compared to previous price of Rs. 3460 per quintal during the past week.

Price Projection for the Next week

Average prices for Sugar 'M' grade in key Kolhapur market reported a weak trend during the previous week. Sugar prices in Kolhapur market are further likely to range between Rs. 3200- Rs. 3350 per quintal in the coming week. Prices have fallen due to improved supply in the market.

International Market Highlights

- The National Board of Revenue (NBR), Bangladesh has withdrawn import duty on both raw and refined sugar. NBR has issued a notification to withdraw a 3,000 taka (about \$28) specific duty on the import of raw sugar and a 6000 taka duty on refined sugar per tonne with immediate effect. The regulatory duty on the import of sugar was also reduced to 25% from 30%. This government decision will help in maintaining the prices in the domestic market.
- International Sugar Organization has revised the sugar production estimated to rise from 172.52 million tonne to 180.43 million tonne for the 2022-23 season. Meanwhile, consumption is projected to rise to 176.280 million tonne, up from 174.773 million tonnes last season. The projected trade balance has a surplus of 0.404 million tonne in 2022-23 season and 0.765 million tonnes in 2021-22 season.
- ISO's fundamental view has changed from neutral-to-bearish to neutral for the next three months. In mid-January, raw sugar prices rose sharply supported by speculators re-establishing long positions. Meanwhile, the market continues to face a futures board in backwardation.

Khurpa	11101	15548
Chausa	36919	44242
Robotin	162463	158296
Total	663503	788980
Surplus	125477	

Source: Agriwatch; unit: Quintals

The Jaggery arrivals in Anakapalle have declined by around 30-40% in the 2022-23 season as compared to the previous season. About 6,000-8,000 jaggery lumps are arriving per day against the previous season of 10,000-14,000. The major reason behind the lower arrivals is lower production as farmers have switched to other crops from Anakapalle and Vizianagaram districts.

As per AgriWatch sources, Jaggery-making units in Uttar Pradesh are working on a lower scale as winter season is almost over, along with it there is enough stock available in the market.

Jaggery Price at Muzaffarnagar Benchmark Market (Rs./Quintal)		
Forecast Date	Past Week	Coming week
06-Mar-23	2888	2750-3020

Ethanol:

World ethanol production in 2022 is estimated to have reached 109.4 billion liters, up from 104.6 billion liters in 2021. For 2023, ethanol output is expected to recover further, reaching 111.8 billion liters. Meanwhile ethanol consumption is expected to be at 104.2 billion liters in 2022, revised lower from 104.5 billion liters. Consumption in 2023 is expected to rise to 106.9 billion liters, driven by increases in India.

Ethanol production in Uttar Pradesh is likely to cross the 135 crore liters mark during the ongoing fiscal as more distilleries are engaged in producing ethanol in the last year. The distilleries in the state have produced 97 crore liters of ethanol during the 2021-22 fiscal.
