

Domestic Market Highlights

Recent Updates:

- According to National Federation of Cooperative Sugar Factories, till 28th February 2023, around 2653 lakh tonnes of sugarcane has been crushed which is 102 lakh tonnes more than last year. Sugar production was 260 lakhs tonnes, which is 7 lakh tonnes more than the production on this date last year. However, the total sugar production for the 2022-23 season is likely to be lower by 7% at 335 lakh tonne against previous season's 359 lakh tonne. Lower sugarcane yield from Maharashtra and Karnataka has resulted in lower sugar production and poor recovery. Average sugar recovery was recorded at 9.78 percent.
- Sugar production is expected to pick up in the coming 2023-24 season. United States Meteorological Department has hinted at the threat of El Nino by the end of July, but is likely to have limited impact as, water reservoirs are full due to excess rainfall last year. Also, before the outbreak of El Nino, general rainfall is expected in the months of June-July. Hence, there maybe low chances of severe adverse effects of El Nino on Indian sugar production in 2023-24.
- Around 528 sugar mills started their operations in the 2022-23 season as against 516 mills that operated last season. Till 15th February'2023, about 61 sugar mills have closed their crushing operations for the 2022-23 season, while 467 sugar mills are still operating in the country.
- During the previous 2021-22 season, around 32 sugar mills had closed their crushing operation and 484 mills were functioning on the corresponding date.

Sugar Production as on 28th February 2023

Sugar Exports:

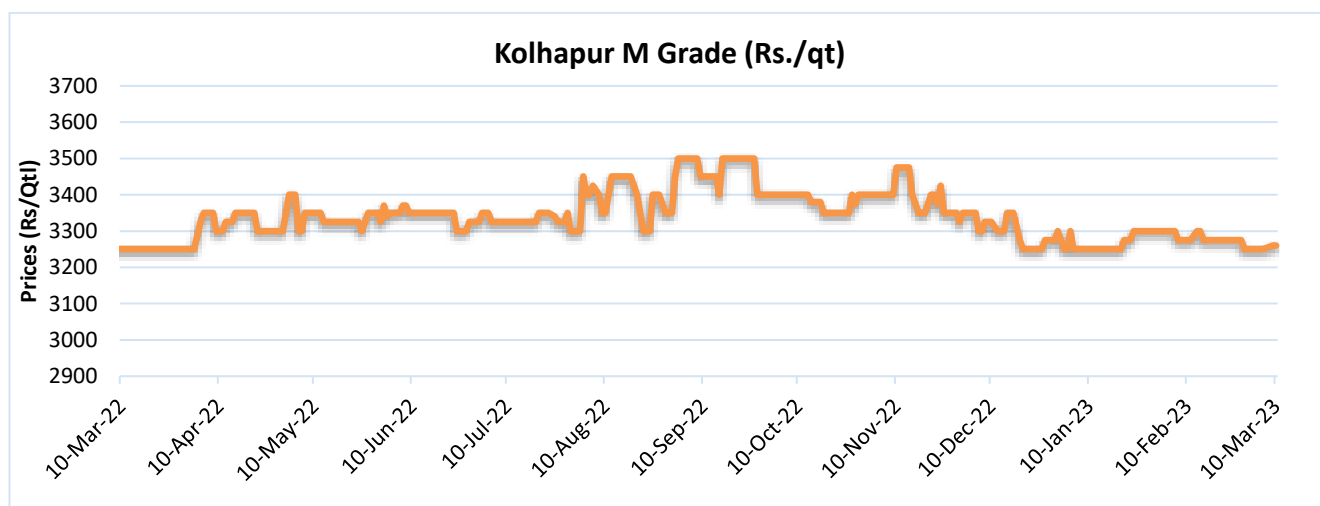

- Amid lower sugar output expectation, government is not likely to allow sugar exports further. But the lower sugar output will not lead to a spike in domestic prices this year as the demand for sugar is around 27 MMT per year, and the stocks are expected to be around XXX.
- Over 35 lakh tonnes (LT) sugar have been dispatched by sugar mills to ports and refineries in special economic zones (SEZs) for exports in the current season (October 2022-September 2023).

Price Outlook:

The average sugar prices in Delhi market were stable at Rs. 3,409 per quintal during the past week. But, sugar prices in Maharashtra traded higher at Rs.3396 per quintal during the week under review from Rs. 3392 per quintal. Average prices for Sugar 'M' grade in key Kolhapur market remained stable at Rs.3250 per quintal, unchanged from the previous week. In Shamli market prices were stable at Rs. 3410 per quintal unchanged as that of previous week.

Price Projection for the Next week

Sugar prices in Kolhapur market are likely to stay in range between Rs. 3200- Rs. 3350 per quintal in the coming week.

International Market Highlights

- The National Board of Revenue (NBR), Bangladesh has withdrawn import duty on both raw and refined sugar. NBR has issued a notification to withdraw a 3,000 taka (about \$28) specific duty on the import of raw sugar and a 6000 taka duty on refined sugar per tonne with immediate effect. The regulatory duty on the import of sugar was also reduced to 25% from 30%. This government decision will help in maintaining the prices in the domestic market.
- International Sugar Organization has revised the sugar production estimated to rise from 172.52 million tonne to 180.43 million tonne for the 2022-23 season. Meanwhile, consumption is projected to rise to 176.280 million tonne, up from 174.773 million tonnes last season. The projected trade balance has a surplus of 0.404 million tonne in 2022-23 season and 0.765 million tonnes in 2021-22 season.
