Sugar Exports:

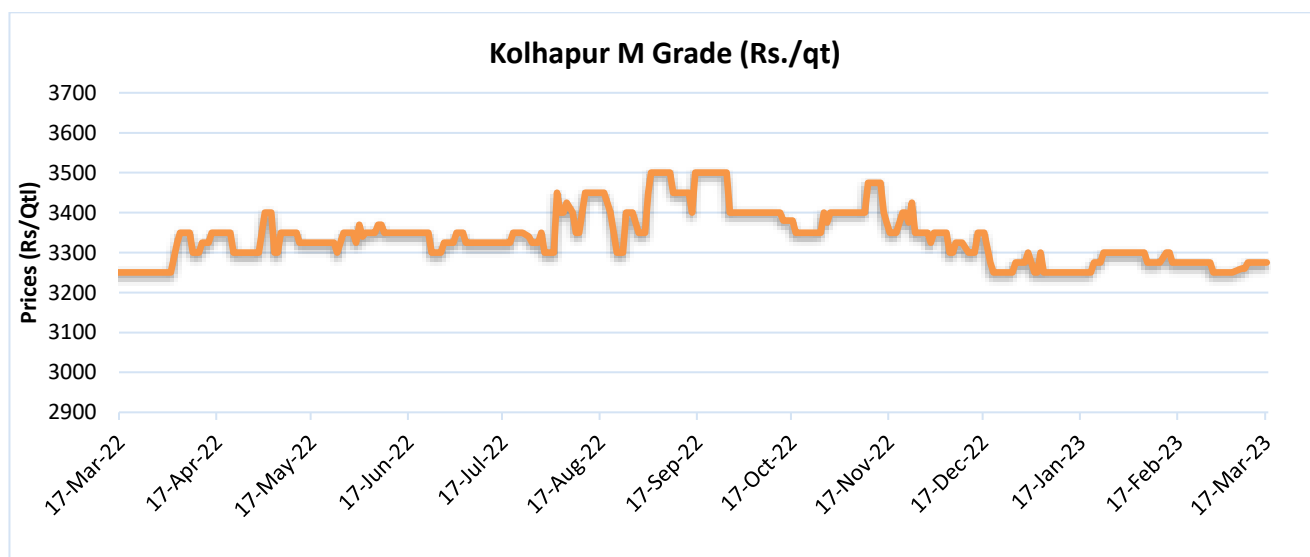

- Amid lower sugar output expectation, government is not likely to allow sugar exports further. But the lower sugar output will not lead to a spike in domestic prices this year as the demand for sugar is around 27 MMT per year, and the production is expected to be around 30.18 MMT.
- Over 35 lakh tonnes (LT) sugar have been dispatched by sugar mills to ports and refineries in special economic zones (SEZs) for exports in the current season (October 2022-September 2023).

International Market Highlights

- Sugar prices in Bangladesh have maintained an upward trend at both wholesale and retail level despite a reduction in import duty. After the reduction, the overall import cost of raw and refined sugar is expected to decline by Tk 6,500 and Tk 9,000 per tonne at the import stage, respectively. But despite that, the price of sugar remained higher, the price increase came amid continued supply shortage and a spike in demand due to Ramadan.
- Earlier, the National Board of Revenue (NBR), Bangladesh had withdrawn the import duty on both raw and refined sugar. NBR has issued a notification to withdraw a 3,000 taka (about \$28) specific duty on the import of raw sugar and a 6000-taka duty on refined sugar per tonne with immediate effect. The regulatory duty on the import of sugar was also reduced to 25% from 30%. This government decision will help in maintaining the prices in the domestic market.
