

Domestic Market Highlights

Recent Updates:

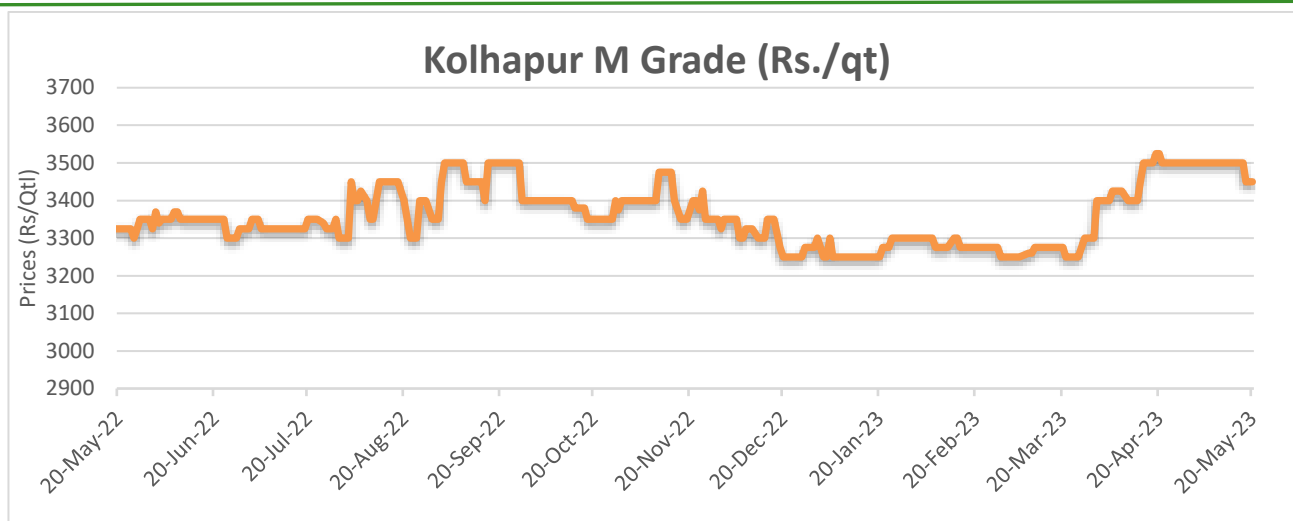

- Sugarcane crushing season has entered its last stage of crushing for the 2022-23 season across India.
- The Commission for Agricultural Costs and Prices has recommended a hike in the fair and remunerative price (FRP) of sugarcane to Rs 315 per quintal for a 10.25% sugar recovery rate for 2023-24 against Rs 305 per quintal in the 2022-23 season.
- Sugar traded bearish in most of the major markets across India after the government released higher sales quota for May month.
- As per the market sources, Sugarcane area is expected to reduce in the coming season in Haryana. Around 70% of the area under cultivation of the Co-0238 variety of cane is likely to get reduced due to the attack of top borer insects and red-rot disease on the crop.

Price Projection:

The average sugar prices in Delhi market were lower by Rs.20/quintal at Rs. 3,586 per quintal during the past week. Maharashtra traded higher at Rs.3515 per quintal during the past week. Average prices for Sugar 'M' grade in key Kolhapur market remained lower at Rs.3450 per quintal. In Shamli market prices were stable at Rs. 3650 per quintal unchanged as that of previous week.

Sugar prices in Kolhapur market are likely to stay in range between Rs. 3400- Rs. 3500 per quintal in the coming week.

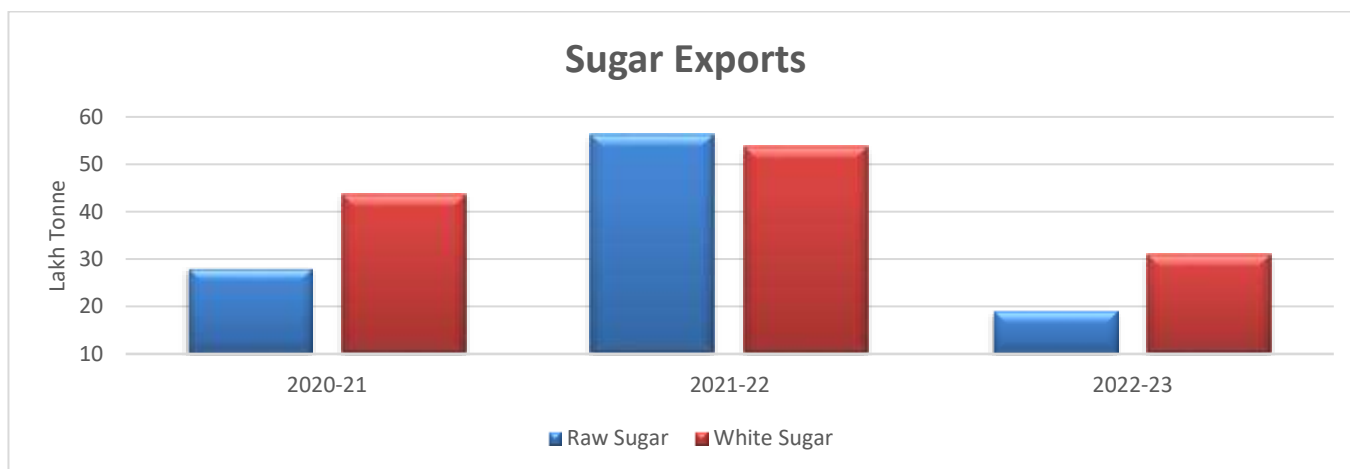

At Agriwatch, we expect prices may trade sideways as government has already released a higher sales quota.

Sugar Price at Kolhapur Benchmark Market (Rs./Quintal)		
Forecast Date	Past Week	Coming week
20-May-23	3450	3400-3500

Sugar Exports:

As per the market sources, the Centre is set to ban exports of sugar amid a decline in production, during the 2022-23 season, mills have so far dispatched around 58 LT for sugar. The government has already capped sugar exports at 60 LT for the current season. The ban would, then, effectively apply only on 2 LT, but will have an impact on market sentiment and check any inflationary trend.

International Market Highlights

- Sugarcane crushing in center south region of Brazil had been affected in the second half of April month mainly due to bad weather which delayed harvesting. Sugarcane crushing was reported at 21 million tonnes against the expectation of 25.59 million tonne in the second half of April. Sugar output was at 9,89,000 tonne.
- Despite record-high prices for cane, the area under cane cultivation may reduce in Thailand. Sugarcane production in Thailand may fall in the coming season mainly due to expectation of El Nino

phenomenon and farmers shifting to other profitable crops (Cassava), As per the market sources (Reuters), sugarcane output for 2023-24 is expected to fall by 21% to 74 million tonne compared to the 2022-23 season.

- Tighter global sugar supplies have led to bullish prices.

	Contract Month	Present Quote	The expected Price level for next week
LIFFE Sugar (US \$/MT)	Aug'23	710	690-730

ICE (Raw Sugar Exchange) Future Market Scenario (Jul'23 Contract)

Technical Commentary:

As depicted in the above chart, prices traded sideways during the past week. Further, prices are expected to move range-bound.

International Sugar Futures Price Projection			
	Contract Month	Present Quote	The expected Price level for next week
ICE Sugar #11 (US Cent/lb)	Jul'23	25.78	25.35-26.40

Jaggery:

Jaggery prices have shown an uptrend in Mysuru and Chamarajanagar districts. During the 2022-23 season, jaggery production had declined in the district majorly due to scarcity of sugarcane for crushing, and

unseasonal rainfall. As a result, the price of jaggery has doubled during this season. The price of jaggery has surged from Rs 3,000 per quintal to a range of Rs 5,500 to Rs 6,000 per quintal.

Jaggery arrivals in Muzaffarnagar market increased during the previous week at around 3000 (40kg bag) from 2000 earlier. Whereas, Chaku prices remained higher at 4000 per quintal.
