

### Domestic Market Highlights

#### Recent Updates:

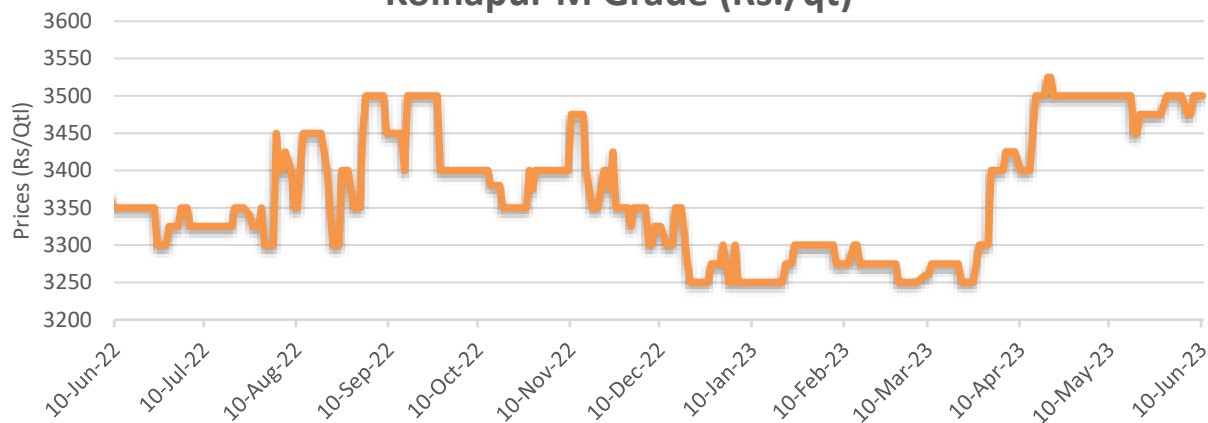

- Sugar prices stayed stable in most of the major markets across India during the last week. Demand has slightly improved in the major markets. Crushing 2022-23 season has almost over across India with only a few sugar mills in Karnataka still crushing . Karnataka sugarcane special crushing season has commenced and full pace crushing is expected in the coming July month. Prices in Kolhapur market are currently at Rs. 3500 per quintal.
- Sugarcane acreage is expected to increase in the coming 2023-24 season. In Sangli district, as per the sources, sugarcane sowing is expected in over 1, 44,128 hectares which is higher by 20,000 hectares compared to the preceding year. Earlier, out of 18 sugar mills in the district, 14 had crushed cane in the 2022-23 season.
- Government is unlikely to allow sugar exports in the 2023-24 season before October 2023. As per the market sources, there will be no decision on sugar export until the government receives advance estimates of sugar production or initial cane assessment for the 2023-24 season.
- India's sugar exports has reached 60 lakh tonne exhausting the allocated export quota for the 2022-23 season. However, the government is unlikely to allow further export as domestic production remains lower at 330 lakh tonne in the 2022-23 season, though mills have been appealing for an additional quota.
- As a result, Brazil has the opportunity to export more sugar in the market. As per the sources, Asian and African buyers have already shifted to Brazil from India.
