

Domestic Market Highlights

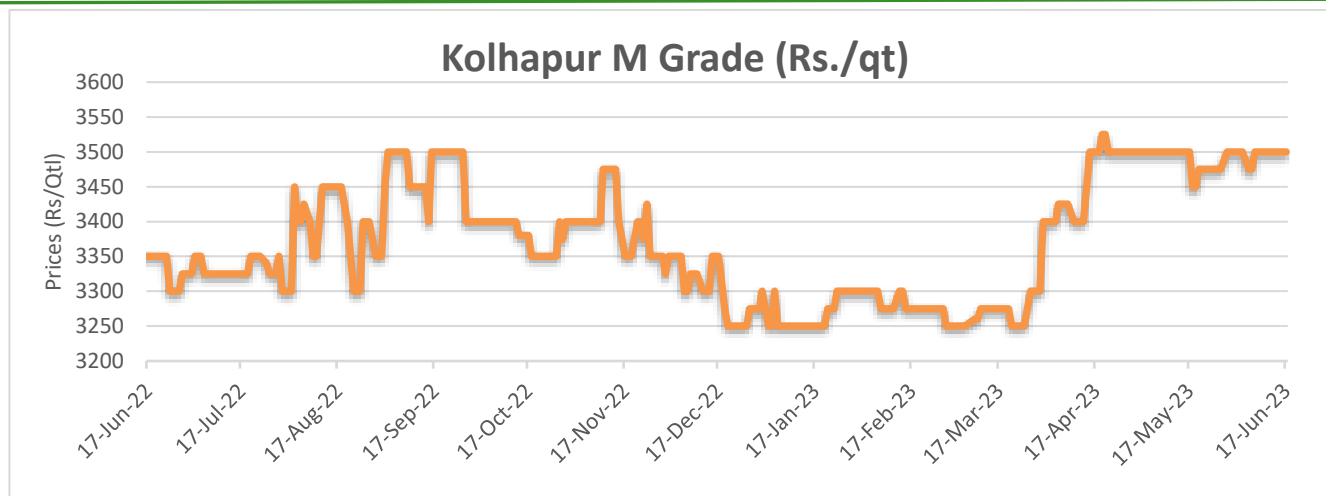

Recent Updates:

- Sugar prices stayed stable in most of the major markets across India during the last week.
- In Kolhapur district, the area under cane cultivation has increased by 30,000 hectares in the past three years with an increase of 13,000 hectares in 2023-24 season as farmers are turning towards cane cultivation as they are getting good returns for the crop.
- Sugarcane Sowing is likely to get delayed due to slow arrival of monsoon in India, however in some states from central India slow progress of sowing has been reported.
- Demand has slightly improved in the major markets. Crushing for 2022-23 season is almost over across India with only a few sugar mills in Karnataka still crushing. Karnataka sugarcane special crushing season has commenced and full pace crushing is expected in the coming July month.
- **Brazil:** A polar mass advancing over Brazil is not expected to hit crops like sugarcane, and corn even though temperatures will drop sharply over the coming days. As per Reuters, some areas will have temperatures close to zero, but crops should be spared from frosts as a cold front system in southern Brazil blocks the polar mass' advance to the main producing regions.

Price Projection:

Average prices for Sugar 'M' grade in key Kolhapur market remained stable at Rs.3500 per quintal, unchanged as compared to the previous week. In Shamli market, prices were lower by Rs.10 per quintal at Rs. 3620 per quintal, as that of previous week.

Sugar prices in Kolhapur market are likely to stay in range between Rs. 3450- Rs. 3500 per quintal in the coming week.
