

Domestic Market Highlights

Recent Updates:

- According to the Ministry of Agriculture and Farmers Welfare's (MOAFW) sowing progress report of 09th July 2023, all India sugarcane planted area has reached 76.18 lakh hectares, 4.14 lakh ha. lower than last year.
- Sugarcane sowing in Andhra Pradesh has delayed due to heavy rainfall and has reached only 0.10 lakh hectares as on 05th July' 23 compared to 0.22 lakh hectares in the 2022-23 season. A.P sugarcane sowing targeted area is around 0.65 lakh hectares for the 2023-24 season.
- Sugar prices are likely to remain stable in India. Demand remains weak with heavy rainfall across India. Also, sowing for the 2023-24 season is likely to be slow due to these rains, however, we expect sugarcane acreage to increase in this season.
- As per UNICA, Sugar production in the Centre-south region of Brazil rose by 7.6% in the second half of June compared to the same period during last year. Around 43 million metric tonne of sugarcane was crushed, up by 2.2% compared to last year.

Jaggery:

Karnataka: Jaggery prices have reached at Rs.120 per kg in Marayur from Idukki district. The price is likely to increase further due to the rise in demand ahead of the Onam season. Also, the lower production and improved demand has resulted in prices rise during the 2022-23 season. Earlier, excess rainfall has damaged the sugarcane crop as well as jaggery production.

Uttar Pradesh: Jaggery 2022-23 season has closed in Muzaffarnagar as well as Gujarat. Demand tends to be low during monsoons, so the markets should get active only around September.

Ethanol:

The EBP India is likely to result in lowering the sugar export in the coming season. As per the Asia Biofuel Outlook, the government's programme of increasing ethanol blending in gasoline to cut oil imports and reduce carbon emissions will help in supporting global sugar prices. India is increasing the capacity to produce ethanol made from sugarcane and as more crop is used for biofuel production, the amount of sugar produced will be limited.

As per the market sources, the first E20 outlet was opened in February this year and now there are more than 600 outlets in the country. By 2025 such stations will be available across the country. The government aims to achieve a 20 per cent ethanol blending target by 2025, which has already crossed 11 per cent ahead of schedule.
