

Today's Update:

- According to the recent press release by IMD, during the season (March to May), above normal minimum temperatures are very likely over most parts of the country except south peninsular India where normal to below normal minimum temperatures are likely. The rising temperature is posing a threat to summer crops mainly Moong and partly urad as the residual soil moisture will deplete fast which would lead to lower sown area where irrigation is unavailable couple with Rabi Chana. Currently, Chana crop is in maturity to harvesting stage and prevailing higher temperature especially over Rajasthan has negative bearing on crop. In Rajasthan, the crop is in pod filling to maturity stage and rising temp. is posing threat to the crop. However, it also stated that it would be early to predict about rainfall during Monsoon only on this finding and agency would come with Monsoon Update by mid-April.

Previous Update:

- Tur prices continued to trade firm except imported Lemon Tur which traded down by 0.65% to INR 7650 per quintal on profit booking. Gulbarga and Latur cash prices traded higher at INR 8100 per quintal, up by 2.53% and at INR 8200 per quintal, up by 5% due to higher import parity amidst lower local crop. Moreover, extended timeline for import till next year also supported the prices. Tur prices are likely to remain firm for coming week. However, profit booking and expected Govt. intervention could change the market direction. Demand is reportedly good for processed Tur (Dall) amid ongoing marriage season and upcoming festivities which would restrict any major decline in prices. C&F offers for Lemon Tur decreased by \$2/MT to \$948 per MT from \$950 per MT last week.

International Market Update:

- C&F offers for Lemon Tur increased by \$50/MT to \$960 per MT from \$910 per MT last week.
