

Today's Update:

- C&F quotes for Lemon Tur decreased by \$15 to \$950 per MT, basis Indian port due to profit booking at higher levels after recent hike in prices. Higher import parity amidst lower local crop and extension of timeline for import all together are supporting the prices as of now. Tur prices are likely to remain firm for coming week. However, Govt. intervention may have negative impact on sentiments.

Previous Update:

- According to the recent press release by IMD, during the season (March to May), above normal minimum temperatures are very likely over most parts of the country except south peninsular India where normal to below normal minimum temperatures are likely. The rising temperature is posing a threat to summer crops mainly Moong and partly urad as the residual soil moisture will deplete fast which would lead to lower sown area where irrigation is unavailable couple with Rabi Chana. Currently, Chana crop is in maturity to harvesting stage and prevailing higher temperature especially over Rajasthan has negative bearing on crop. In Rajasthan, the crop is in pod filling to maturity stage and rising temp. is posing threat to the crop. However, it also stated that it would be early to predict about rainfall during Monsoon only on this finding and agency would come with Monsoon Update by mid-April.

International Market Update:

- C&F offers for Lemon Tur increased by \$50/MT to \$960 per MT from \$910 per MT last week.
