

Today's Update:

- As per trade sources, India has imported 73,314 MT of Tur during the month of April 2023 as compared to 55,007 MT in April 2022. Amongst which 23,030 MT has been imported from Mozambique, 35,725 MT from Myanmar while rest of the volume has been imported from Malawi, , Sudan, Kenya and Tanzania.

Previous Update:

- Govt.'s warning of stern action against the rising prices of two major imported Pulses Tur and Urad is likely to have a temporary impact on prices right now. However, given the background of lower stocks at ports, any steep and sudden fall in prices is unlikely as of now. Price direction in the domestic market would depend on import volume coming into India from Myanmar. If, the competent authorities succeed in creating pressure on the traders who have reportedly stocked in Myanmar to export it to India, it may bring down the prices by INR 300-400 per quintal in coming days, otherwise, prices may start moving up again after a slight downward correction.
