

**Today's Update:**

- Though the India Meteorological Department (IMD) has announced the onset of SW Monsoon on June 8th, 2023 over the main land (Kerala), however, the system prevailing over the Arabian Sea is likely to affect the progress of SW Monsoon over the country. Currently over the Arabian Sea, the cyclone "Biparjoy" has strengthened into extremely severe cyclone and it is moving towards Gujarat and due to this, the movement / progress of the monsoon over India will likely be affected. Besides, there is low pressure area forming over Bay of Bengal which may turn into cyclone along with the prevailing cyclonic circulation over the eastern India. Combination of all the prevailing factors hints at a delay in progress of monsoon for a significant amount of time over the country. Besides, the temperature over the key growing states is increasing due to which the soil moisture condition is depleting fast. Thus, it is likely to affect / delay the progress of sowing.

**Previous Update:**

- The stock limit imposed by central government recently over Tur and Urad has failed to contain the prices domestically and now after Tur, Urad prices started moving up in the market despite the summer arrivals are on.
