

**Today's Update:**

- According to the recent release by Andhra Pradesh Agriculture Department, farmers have covered 0.02 lakh ha. area under Kharif pulses as on 28th June 2023, down by 60% from 0.05 lakh ha. same time last year. Tur coverage remained at 0.02 lakh ha., down by 50% from 0.04 lakh ha. while Moong and Urad sowing has not started yet owing to slow progress and uneven distribution of monsoon so far.

**Previous Update:**

- As per IMD, conditions are favourable for further advancement of SW-monsoon into some more parts of Rajasthan and remaining parts of Haryana and Punjab during next few days. Isolated to scattered rainfall over remaining part of the country is likely during the next week. Due to uneven circulation of rainfall so far, Urad and Moong growers in Karnataka and Maharashtra are expected to choose Tur due to contract sowing window for both the commodities.
- Sowing coverage couple with distribution and timing of the monsoon rainfall over major Pulses producing states would remain the crucial for coming days.
