Domestic, International Prices and Arrivals at Different Centres

Market Update / Highlights:

As per IMD, a fresh Western Disturbance is likely to affect NW India including major Pulses State Rajasthan and UP from 2nd April, 2023 immediately after three weather disturbances seen in March alone. Chana crop has been affected due to heavy rainfall coupled with hailstorm and gusty winds mainly in Rajasthan where around 70-80% crop is close to harvest. As per traders, around 5-7% crop has affected due to hailstorm and rainfall and if it rains heavily, % loss may increase from current level. However, weather is expected to remain clear and dry in other Pulses growing states MP, and Gujarat.

As per trade sources, total 51,500 imported Pulses including 29,850 MT Tur and 21,650 MT Urad arrived at Chennai port during 1-27th March, 2023. According to official data, India had imported 73,957 MT Tur and 70,484 MT Urad in March-2022.

The Department of Consumer Affairs has constituted a Committee for monitoring Tur stocks held by various entities such as importers, millers, stockists, traders etc. in close coordination with the state governments.

Most of the markets remained closed in the observation of various festivals including Ramanavami, Navaratri, Ramadan and closer of Financial Year. Normal trading activities expected from mid-next week.

Pigeon Pea (Tur/Toor):

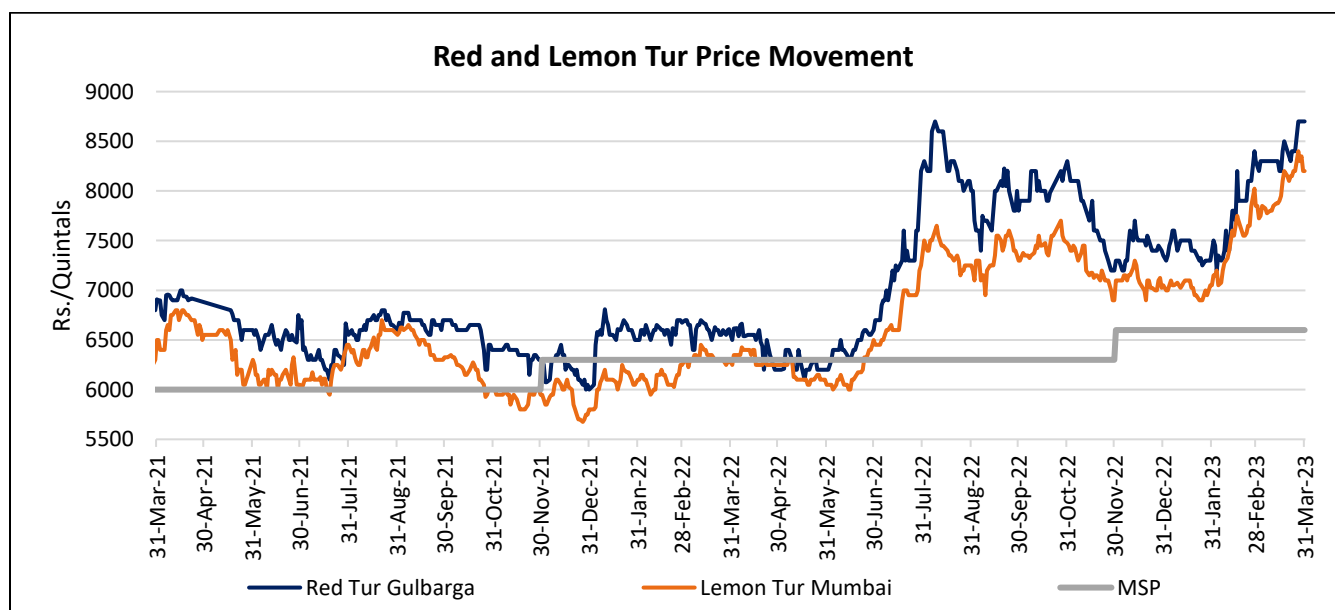

Market Recap:

Regular demand for Dal due to various festivals, limited stocks at domestic end and continuous hike in C&F quotes for imported influx mainly from Myanmar kept **Tur** firm this week too under the review. Tur prices increased by 2-6%, on an average. Farmers are estimated to have around 10-15% stocks which they are holding for higher prices given the lower Kharif Tur production estimates in the market. Tur export to India from Myanmar has reduced in recent past as local traders are preferring to hold back the stock for long as extended timeframe for imports till March next year has given power to overseas traders to hold back their stocks at the import sources. Tur likely to trade sideways as apprehension regarding Indian Govt.'s intervention has increased. However, long term trend seems bullish given the back drop of lower domestic production and limited stock. C&F offers for Lemon Tur increased by \$20 to \$1050 per MT, basis Indian port.

Tur traded firm during the week. It traded at INR 8700 per quintal, up by 4.82% in Gulbarga and traded at INR 8800 per quintal, up by 6% in Latur.

Outlook for the week: Prices may remain sideways in coming days.

Following graph illustrates Tur price movement in different markets:

Markets	Current	Week Ago	Month Ago	Year Ago	% Ch. Over
	31-03-2023	23-03-2023	28-02-2023	31-03-2022	23-03-2023
