

TURMERIC

Fundamentals:

Today's Update:

- Mostly Turmeric spot markets were closed today due to Amavasya.
- AgriWatch foresees a bullish trend in turmeric prices in the coming days, driven by consistent demand from the export market, masala and powder companies. Moreover, farmers and stockists are holding onto their stocks in anticipation of price increases due to lower sowing acreage, resulting in a supply shortage in the cash markets. As a consequence of these factors, AgriWatch expects the turmeric market to trade at elevated levels.
- An increase in export demand, particularly from Indonesia, Bangladesh, and China and hence prices are expected to trade on a higher note by INR 500-1,000 per quintal in the coming days.

Previous Update:

- Sowing activities in certain regions of Turmeric growing states like Telangana, Tamil Nadu, Andhra Pradesh, and Maharashtra have commenced at a slower pace in the current and previous week due to rainfall.
- Sowing activities began in Sangli district of Maharashtra two weeks ago, facilitated by favorable irrigation facilities. Similarly, in the Erode district of Tamil Nadu, the gradual onset of monsoon showers has initiated sowing activities in recent days. The Telangana state has experienced adequate rainfall, supporting sowing activities that have commenced in regions like Nizamabad and other agricultural areas. These activities are expected to persist until the end of August, assuming the weather remains favorable. On the other hand, farmers in the Warangal growing region of Telangana have not yet started sowing as they await substantial monsoon showers. In Andhra Pradesh, sowing has begun and is expected to continue until the end of July.
- However, a clearer view of the sowing situation is anticipated by mid-July when sowing is expected to accelerate significantly on favorable monsoon conditions.
- AgriWatch initial estimates, Turmeric (Dry) all India production for 2023 is at 5.26 lakh MT compared to last year's 4.67 lakh MT.
