

Pulses Domestic Fundamentals:

Today's Update

- Urad cash market is likely to move up gradually due to increasing concern regarding the impact of Cyclone over Tamil Nadu and AP which are major Rabi Urad producing states. If the intensity of rains remains heavy, it may impact the size as well as quality of the crop. Meanwhile, around 50-60% arrivals have already arrived in the markets from Chandausi line, U.P. and now the dependency will increase on bold quality imported stuff.

Previous Update:

- As per IMD, a Deep Depression area has been created over southeast Bay of Bengal which is likely to move west-northwestwards and intensify further gradually into a Cyclonic Storm. Due to this, light to moderate rainfall at most places with heavy to very heavy falls at isolated places very likely over Tamil Nadu, Andhra Pradesh during 8-11 December, 2022. Tamil Nadu and Andhra Pradesh are main belt of Rabi Urad where around 3.64 lakh ha. and 3.58 lakh ha. area respectively is sown under Urad. From mid-December, new Urad crop starts to arrive in markets in small size in AP which lasts in March. Urad current scenario may see a turnaround if IMD's prediction comes true as heavy rainfall size may not only negatively impact the standing crop but also germinative too due to water logging for long period.

International Market Update:

Myanmar C&F quotes increased to \$800 for FAQ from \$798 per MT and SQ variety quoted at \$900 per MT, down from \$912 per MT, basis Indian ports during the week.
