

Pulses Domestic Fundamentals:

Today's Update

- According to IMD, weather is likely to be clear and dry across all major Pulses grown areas in India and an alarm raised for rising temperature for NW India (Rajasthan, Gujarat). Currently Chana crop is in maturity to harvesting stage and prevailing higher temperature especially over Rajasthan has negative bearing on crop. In Rajasthan, the crop is in pod filling to maturity stage and rising temp. is posing threat to the crop. However, there has been no threat to the lentil and peas crop which is mainly in central India and temp. as of now is conducive for the crops.
- The rising temperature, is also posing a threat to summer crops mainly Moong and partly urad as the residual soil moisture will deplete fast which would lead to lower sown area where irrigation is unavailable.
- Meanwhile, new Chana and Masur crop arrivals have started in some places of MP and UP but in small quantity and is expected to increase post Holi festival in these two states.

Previous Update:

- Quotes for FAQ and SQ varieties decreased by \$5 per MT at \$825 per MT and to \$925 per MT, basis Indian ports respectively on profit booking at higher prices. Reportedly, local traders in Myanmar holding back stocks in anticipation of higher prices amid increased demand from India, supporting the prices. Moreover, Myanmar traders are not in hurry to load cargoes for India as timeline for import has been extended till next year. However, new crop arrivals in Myanmar has already started and supplies are increasing their locally.

International Market Update:

- C&F quotes also supported the sentiments. Quotes for FAQ and SQ varieties increased by \$15 and \$20 per MT to \$850 per MT and to \$955 per MT, basis Indian ports respectively.
