

Pulses Domestic Fundamentals:
Today's Update

- C&F quotes for Myanmar FAQ and SQ varieties decreased by \$15 to \$830 and \$930 per MT, basis Indian port due to profit booking at higher levels after recent hike on lower inventory and stock holding tendency by Myanmar traders in anticipation of higher demand from India. Urad prices are likely to remain supportive in the coming week. However, any Govt. intervention may have negative impact on the sentiment.

Previous Update:

- According to the recent press release by IMD, during the season (March to May), above normal minimum temperatures are very likely over most parts of the country except south peninsula India where normal to below normal minimum temperatures are likely. The rising temperature is posing a threat to summer crops mainly Moong and partly urad as the residual soil moisture will deplete fast which would lead to lower sown area where irrigation is unavailable couple with Rabi Chana. Currently, Chana crop is in maturity to harvesting stage and prevailing higher temperature especially over Rajasthan has negative bearing on crop. In Rajasthan, the crop is in pod filling to maturity stage and rising temp. is posing threat to the crop. However, it also stated that it would be early to predict about rainfall during Monsoon only on this finding and agency would come with Monsoon Update by mid-April.

International Market Update:

- C&F quotes also supported the sentiments. Quotes for FAQ and SQ varieties increased by \$15 and \$20 per MT to \$850 per MT and to \$955 per MT, basis Indian ports respectively.
