Market Recap:

Urad prices in key benchmark markets traded firm by 2-3%, on an average, during the week under review due to increased C&F quotes for FAQ and SQ varieties which increased by \$10 to \$810 per MT and \$21 to \$910 per MT, basis Indian ports respectively. However, the upward momentum might be limited due to new crop arrivals from Tamil Nadu and Andhra Pradesh. Simultaneously, stocks of previous crop are also reportedly good. So, at this point of time, stockist's may try to release their stocks in both the states to build up space for new crop which is expected to increase by mid-February. Apart from it, Myanmar crop is not too far away from now.

Demand for Urad Dal is reportedly good at present which is supporting the prices despite the increase in new crop arrivals.

Outlook for the week: Urad may trade steady in coming week.
