

Domestic Fundamentals:

- Edible oil basket featured a mixed tone at major market, Friday. Palm & soybean oil quoted higher. While, Groundnut and Rapeseed oil featured losses.
- The CCEA has approved the proposal for increasing the import duty on refined edible oils of vegetable origin to 10 percent to maintain a reasonable differential between import duty on crude and refined vegetable oils to protect the domestic refining industry and domestic farmers. Earlier the import duty on refined edible oils was 7.5 percent. Groundnut oil quoted slightly lower at Rajkot market owing to lower retail demand and adequate groundnut seed stocks for crushing. Groundnut oil dipped by Rs 10 per 10 Kg to Rs 750 per 10 Kg from previous trade session.
- Rapeseed oil featured weak tone tracking bearish cues from the international palm oil market and lackluster buying
 interest. Extreme cold weather over key mustard growing regions of Rajasthan raises the concern of lower yields, if the
 temperature remains below normal levels. Rapeseed oil quoted lower at Kota market Rs 665 per 10 Kg, down Rs 5 per
 10 Kg.
- Edible oil basket is expected to feature steady to slightly weak tone in the near-term. While, recovery in the Indian rupee and sideways trend in the international oil & fats market may cap the gains.

International Market Fundamentals:

- CPO at BMD ended lower on continued pressure from CBOT soy oil prices and weak palm oil exports figures. CPO
 Feb contract at BMD ended at MYR 2503 per tons, down 19 points from previous trade session. Malaysia Jan. 1-10
 palm oil exports fell 21 percentage to 2, 97,308 Tons on M-o-M basis Intertek.
- As per data released by the Malaysian Palm Oil Board (MPOB), palm oil inventories rose 0.3 percent in December to 1.985 million tons. While, the palm oil production fell by 10.75 percent to 1.667 million tons in December. Exports also rose by 0.3 percent to 1.50 million tons from a month ago.

Outlook: Edible oil basket is expected to feature steady to slightly weak tone in the near-term.
