AGRIWATCH

Domestic Fundamentals:

- Steady to weak sentiments featured in most of the edible oil markets tracking short-term fall during the weekdays.
- Refined soyoil, palm oil and rapeseed oil witnessed steady to weak trend.
- Refined sunflower and groundnut oils mostly remained flat compared to previous day's level.
- Refined cottonseed oil fell while coconut oil posted gains Saturday.
- Crude palm oil at Kandla was quoted slightly higher. Besides, import disparity in the palm oil from Indonesia and lower palm oil imports during the first two months of 2014 likely to limit any major fall in the near term. Crude palm oil at Kandla market quoted Rs 578 per 10 Kg, up Rs 3 per 10 Kg from Friday.
- Edible oil basket is expected to feature steady tone in the near-term. While, higher soybean output projections from last year and consolidation in the international oil and fats market may cap the gains.

International Market Fundamentals:

 Malaysian palm oil products exports for March 1-20 fell 12.3 percent to 767,785 tons from the 875,091 tonnes shipped during Feb. 1-20 - Cargo surveyor Intertek Testing Services. As per Malaysian government, Malaysia has raised its crude palm oil export tax for April to 5.5 percent.

Outlook: Edible oil basket is expected to feature steady tone in the near-term.
