

Domestic Fundamentals:

- Steady to weak trend witnessed in the most of the edible oils due to overnight losses in the international oil & fats market, Saturday.
- Mustard oil featured slightly weak tone in major cash markets owing to good supplies and limited buying. Rising mustard seed supplies in the cash market and adequate availability of rapeseed oil likely to pressurize the prices in the near term. However, renewed demand from millers at lower quotes may witness in the coming week, which may limit the downside risk in the RM seed oil prices.
- As per Solvent Extractors' Association of India, India palm oil imports including crude and refined fell 23 percent to 5.37 lakh tons from the same period of the last year. Crude soybean oil imports were 1.89 lakh tons, sunflower oil at 97,900 tons.
- Edible oil basket is expected to feature steady to firm tone in the near-term. While, higher world soybean output projections from last year and consolidation in the international oil and fats market may cap the gains.

International Market Fundamentals:

- Exports of Malaysian palm oil products for Apr. 1-15 rose 6.7 percent to 500,057 tons from 468,855 tons shipped during Mar. 1-15, cargo surveyor Societe Generale de Surveillance. India imported 85,460 tons, 76.1 percent higher from the corresponding period of last year.

Outlook: Edible oil basket is expected to feature steady to firm tone in the near-term.
