

**Domestic Fundamentals:**

- Sideways to slightly weak trend continue in the edible oil complex tracking lackluster buying interest against adequate supplies and weak cues from the international palm oil market, Tuesday.
- Crude palm oil featured weak tone at Kandla owing to persistent losses in the international palm oil market and higher imports. CPO at Kandla quoted Rs 507 per 10 Kg, down Rs 7 per 10 Kg from Saturday. As per sources, Indian buyers imported 1.85 lakh tons of crude palm oil and 0.55 lakh tons of RBD palmolein during 19-29 May 2014. While, Solvent Extractors' Association of India reported that India imported palm oil including (CPO, RBD palmolein and crude palm kernel oil) stood at 36.7 million tons, down 14.8 percent from the same period of the last year.
- Range bound to slightly weak tone witnessed in groundnut oil at major cash market owing to limited demand against adequate stocks. However, lower quotes may trigger retail demand in the coming days. Groundnut oil at Rajkot market quoted Rs 680 per 10 Kg. while, at Chennai groundnut oil is offered at Rs 750 per 10 Kg.
- Edible oil basket is expected to feature steady tone in the near-term. While, higher world soybean output projections from last year may cap the gains.

**International Market Fundamentals:**

- Malaysian palm oil products exports in May rose 7.8 percent to 1,315,952 tons from 1,220,882 tons shipped in April - cargo surveyor Intertek Testing Services. India & sub continent imported 3.46 lakh tons of palm oil & its product during May, up 34.1 percent from last month.
- U.S. biodiesel production rose to 98 million gallons in March, up 28.44 percent from the month earlier. About 379 million lbs of soybean oil used in March and last month soybean oil used in biodiesel production was 277 million lbs. U.S. Department of Agriculture has projected that 5.2 billion lbs of soybean oil will be used for biodiesel production in the 2013/14 marketing year that began Oct. 1 (Reuters)

**Outlook:** Edible oil basket is expected to feature steady tone in the near-term.
