

Domestic Fundamentals:

- Most of the edible oils at various markets featured steady tone owing to need based demand, Saturday.
- Gujarat's agriculture department data showed that most of the parts of the state received good rainfall in the last week
 of July, which spur the sowing prospects; groundnut sowing had been completed on 11.2 lakh hectares by July 28
 (77.81 per cent of the overall sowing area), against 15.9 lakh hectares a week earlier. Moreover, Rajasthan's
 Agriculture department reported that farmers have planted 3.84 lakh hectares of groundnut as on 31 July 2014 (87.1
 per cent of the overall sowing area). Gujarat and Rajasthan together account 55-60 percent of the total normal Kharif
 groundnut acreage.
- Soybean oil quoted steady in line with the other oils. However, demand had eased with an end of Muslim festivities to some extent and favorable weather condition over key soybean growing regions of India and US limit the gains.
- Edible oil basket is expected to feature steady tone in the near-term. While, higher world soybean output projections from last year may cap the gains.

International Market Fundamentals:

- Exports of Malaysian palm oil products in July fell 2.8 percent to 1,353,516 tons from 1,391,942 tons shipped in June cargo surveyor Intertek Testing Services.
- As per Safras & Mercado, Brazil's soybean acreage seen up 4 percent in the 2014-2015 growing season from the 2013-2014 season to 31.2 million hectares (77.1 million acres) owing to good weather and rainfall during the last week support the soil moisture.

Outlook: Edible oil basket is expected to feature steady tone in the near-term.
