

Domestic Fundamentals:

- Most of the edible oils at various markets featured steady to slightly weak tone citing bearish cues from the international veg. oil market and need based demand, Monday.
- On the planting front, kharif soybean planting has progressed to 95.39 lakh hectares as on 1 August 2014, compared with 117.43 lakh hectares in the same period a year earlier. Rajasthan's Agriculture Ministry reported that farmers have planted 8.02 lakh hectares of soybean as on 08 August 2014 (77.2 per cent of the overall sowing area). However, the target soybean area for Kharif 2014 is pegged at 10.40 lakh hectares.
- Coconut oil witnessed steady to firm tone at various market on Monday. As per sources, good demand for coconut oil
 from wholesalers may support the coconut oil in the near-medium term. Moreover, upcoming festivities add bullish
 sentiments to the market.
- Edible oil basket is expected to feature steady to weak tone in the near-term but the upcoming festivities in August and diminishing oilseeds arrivals may caps the excessive gains.

International Market Fundamentals:

• CPO at BMD ended lower on weak Malaysian palm oil statistics data. MPOB Report's Highlights - Malaysian palm oil stocks rose 1.5 percent to 1,681,016 tonnes against a revised 1,656,700 tonnes at the end of June due to lower exports and higher palm oil production. Malaysia's palm oil production exports in July stood at 1.66 million tons, 6.4% higher from the previous month but on y-o-y basis about 0.59 percent lower palm oil production noted during June. On the export front, palm oil export fell by 2.70 percent to 1.44 million tons on m-o-m basis. Report was slightly bearish for palm oil as market participants were expecting 1.64 MMT of palm oil inventories as of June.

Outlook: Edible oil basket is expected to feature steady to weak tone in the near-term.
