

#### Domestic Fundamentals:

- Most of the edible oils at various markets featured steady to weak tone on dull demand against adequate imported stocks and weak overseas veg. oil market, Friday.
- Refined soybean oil featured losses at various markets owing to dull demand and higher imports during 1-2 months.
  Moreover, weak trend in the international veg. oil market weigh on the market sentiments. On the price front, India is reported to have traded soybean oil for September shipment at a CIF price at USD 875 per tons and for October/November shipments at USD 863 per tons as on 22 August 2014. CIF quote for soybean oil at Kandla has decreased to USD 813 per tons, down 3.6 percent on average basis during the week in review and likely to trade lower in the near term.
- As per IBIS (complied by Agriwatch), India imported around 3.15 lakh tons of soft oils of which comprises of crude sunflower oil majorly from Ukraine to 1.21 lakh tons and 1.93 lakh tons of crude degummed soybean oil during 28 July-17 August 2014. Moreover, Indian buyers imported 5.40 lakh tons of crude palm oil and 0.99 lakh tons of RBD palmolein majorly from Indonesia and Malaysia during 28 July-17 August 2014.
- Edible oil basket is expected to feature steady to weak tone in the near-term but diminishing oilseeds arrivals may caps the excessive losses.

#### **International Market Fundamentals:**

 Palm oil futures at Bursa Malaysia Derivative exchange ended lower mainly attributed to the expectation of near record soybean production in US, losses in the crude oil prices and weak demand for palm oil. Palm oil futures (Sept. contract) ended at MYR 2020 per tons, down 35 points from Friday's quote. Malaysian palm oil products exports during August 1-20 fell 5.39 percent to 822,026 tons - cargo surveyor Intertek Testing Services.

Outlook: Edible oil basket is expected to feature steady to weak tone in the near-term.
