

Domestic Fundamentals:

- Sideways to slightly firm trend witnessed in various edible oils in different market centers owing to festive demand and early gains in the international palm oil market.
- Palm oil quoted slight higher on need based buying and gains in the international palm oil market. RBD palmolein quoted at Rs 505 per 10 Kg at Mumbai and crude palm oil quoted at Rs 440 per 10 Kg on Tuesday.
- According to latest estimates released by Solvent Extractors Association of India, Gujarat's kharif groundnut output for 2014-15 forecast at 14.35 lakh tons due to erratic rainfall and lower acreage under groundnut. Lower availability of raw material for crushing, better buying from stockists and seasonal festive demand for groundnut may lift the prices further for short term.
- Edible oil basket is expected to feature range bound to weak tone on bearish global outlook scenario in the near-term. However, renewed buying could witness at lower quotes.

International Market Fundamentals:

- CPO near month contract at BMD ended slight higher by 0.46 percent from Monday's quotes tracking gains in the soy complex and technical buying. However, lackluster demand from major palm oil importer countries limits the upside.
- Exports of Malaysian palm oil products for Oct. 1-15 fell 15.5 percent to 621,145 tonnes from 735,334 tonnes shipped during Sep. 1-15, cargo surveyor Societe Generale de Surveillance. Indian buyers imported 116,500 tons of palm oil products during the first fifteen days of October.-48.5 percent on m-o-m basis.

Outlook: Edible oils are expected to feature sideways to weak trend in the near-term.
