

**Domestic Fundamentals:**

- Mixed trend featured in various edible oils in different centers on varied factors Friday.
- As per IBIS data (compiled by Agriwatch), Indian buyers imported 6.898 lakh tons of crude palm oil, 1.284 lakh tons of crude soybean oil, 1.337 lakh tons of crude sunflower oil and 0.769 lakh tons of RBD palmolein during 28 October-16 November.
- CIF soybean oil at Indian port is offered at USD 836 per tons for Nov./Dec. delivery and USD 832 per tons for Jan./Feb. delivery on 20 November 2014. Demand for soybean oil in the cash market is need based. Market participants remain reluctant to buy huge stocks at current prices.
- According to the U.S. Department of Agriculture, U.S. soy harvest was 94 percent completed as of November 16, up from 90% in the preceding week. The USDA estimate US soybean harvest will reach a record 3.958 billion bushels.
- CPO futures at BMD ended lower on Thursday tracking weak Malaysian palm oil export data for 1-20 and limited buying. However, weaker ringgits against US dollar limit the downside.
- Exports of Malaysian palm oil products for November 1 - 20 fell 6.4 percent to 837,659 tonnes from 894,697 tonnes shipped during October 1 - 20, cargo surveyor Intertek Testing Services. Indian & subcontinent buyers imported 143,650 tons v/s 188,100 tons compared to same period of last year.

**Outlook:** Edible oil basket is expected to feature range bound on need based demand in the spot market.
