AGRIWATCH

## **Domestic Fundamentals:**

- Steady to weak sentiments witnessed in the various edible oil prices in different market centers owing to need based buying Mustard oil quoted up at major market on bullish domestic fundamentals.
- As per IBIS data (complied by Agriwatch), Indian buyers imported 0.534 lakh tons of crude soybean oil majorly from Argentina, 3.516 lakh tons of crude palm oil, 0.804 lakh tons of crude sunflower oil and 0.260 lakh tons of RBD palmolein during 01-14 Dec 2014.
- Optimism in the commodity market for short term after Federal Reserve decision to keep the interest rates unchanged to near zero for a "considerable time". Meanwhile, record soybean production estimate for US and higher crude oil production limit the upside.
- USDA forecast US soybean production to 107.7 million tons for 2014-15, up 16.4 million tons from last year. Oil World forecasts world palm oil production to rise to 61.2 million tons for 2014/15 (Oct./Sept.) v/s 59.4 million tons previous year. Indonesian palm oil production for 2014-15 forecast at 32.2 million tons and Malaysia's production is estimate at 19.8 million tons. On the consumption front, Indian domestic use is estimate at 8.5 million tons and in China at 6.2 million tons.

Outlook: Edible oil basket is expected to feature range bound to slightly firm tone on need based buying in the spot market.
