AGRIWATCH

## **Domestic Fundamentals:**

- Steady to firm sentiments featured in the various edible oils in different centers followed by hike on import duty in edible oils by 5%. Besides, overnight gains in CBOT soy oil remained supportive for the edible oil markets.
- Finance Ministry, Govt. of India, has finally increased the import duty on crude and refined by 5% to 7.5% on crude and 15% on refined oils from 2.5% and 10% respectively. The move will boost the soybean prices and protect the farmers and solvent extractors/crushing industry.
- Diminishing RM seed arrivals and good seasonal demand for oils likely to support RM seed oil in the near term. On the planting front, Indian farmers have been sown 63.66 lakh hectares of mustard seed (2014-15 crop year) as on 18 Dec. 2014, which was 66.555 lakh ha. compared to the last year same period. State wise details - in Rajasthan has been sown in 26.41 (29.73) lakh hectares, in MP sowing reached at 6.46 (7.79) lakh hectares and in UP sowing reached to 11.36 (10.31) lakh hectares. Values in bracket were last year same period figures. Three states above together account 70 percent of the total normal Rabi mustard acreage.
- CPO at BMD ended higher tracking bullish cues from international commodity market and supportive Malaysian palm • oil export figures for 1-20 Dec., 2014.
- Exports of Malaysian palm oil products for December 1 20 rose 8.8 percent to 911,595 tons from 837,659 tons shipped during November 1-20 - Intertek Testing Services. India & subcontinent imported 193,350 tons v/s 143,650 tons last month same period. Moreover, EU's countires and China imported 234,020 and 207,325 tons respectively during December 1-20, 2014.

Outlook: Edible oil basket is expected to feature gains on renewed buying in the spot market.
