

Domestic Fundamentals:

- Weak sentiments witnessed in most of the edible oils markets on limited buying and weak industry reports, Wednesday.
- As per IBIS data (analyzed by Agriwatch), Indian buyers imported 0.5721 lakh tons (down 15.7 percnet m-o-m) of crude soybean oil majorly from Argentina, 1.0615 lakh tons (down 39.3 percent m-o-m) of crude palm oil, 0.1577 lakh tons (down 41.7 percent m-o-m) of crude sunflower oil and 0.4437 lakh tons (up 11.5 percnet m-o-m) of RBD palmolein during 02-08 March 2015.
- Exports of Malaysian palm oil products for Mar. 1-10 fell 19.3 percent to 247,698 tons from 307,122 tons shipped during Feb. 1-10 cargo surveyor Societe Generale de Surveillance.
- Malaysia's palm oil stocks at the end of February fell 1.5 percent to 1,743,102 tonnes against a revised 1,770,142 tonnes at the end of January Malaysian Palm Oil Board. The report is bearish for palm oil prices as market participants were expecting 1.65-1.67 MT of ending stocks for February. Moreover, new supplies from South American countries and weak meal demand may favor the bears in the coming days
- U.S. soybean supply and use projections for 2014/15 are unchanged this month. With soybean crush and exports projected at 1,795 million bushels and 1,790 million bushels respectively, ending stocks remain projected at an 8-year high of 385 million bushels. Soybean and soybean product prices are also unchanged.
- Price Projection -The U.S. season-average soybean price range for 2014/15 is projected at \$9.45 to \$10.95 per bushel; soybean meal and soybean oil prices are projected at \$350 to \$390 per short ton and 30 to 34 cents per pound, respectively.

Outlook: Edible oil basket is expected to feature range bound to weak tone on limited buying in the spot market.
