

### Domestic Fundamentals:

- Edible oil basket witnessed steady to firm tone tracking better buying in the major cash market and gains in the international crude oil market, Tuesday.
- Malaysia's palm oil stocks at the end of April rose 17.6 percent to 2,194,198 tonnes against a revised 1,865,927 tonnes at the end of March, industry regulator Malaysian Palm Oil Board
- China, imported 5.31 million tonnes of soybeans in April, up 18.3 percent from 4.49 million tonnes in March, figures from the General Administration of Customs of China showed. Imports of vegetable oils in April were 520,000 tonnes, up 44.4 percent from the previous month.
- SOPA has slashed its soybean production estimate for 2014-15 to 10 million tons, down 0.4 million tons from previous estimate owing to yield losses. Moreover, SOPA urge to the central government to stop soybean trade on exchanges due to speculation in the lean season.
- US soybean planting is reported at 13% as on 03 May, 2015 which is ahead from 5% during the same period last year. Last week, farmer had planted 2 % of the total soybean acreage estimated for 2015-16. Farmers who have finished corn planting move towards the soybean due to above normal temperature and sowing is likely to pick up pace in the coming days. Ideal sowing window for soybean in US is from second week of May to first week of June.

**Outlook:** Edible oil basket is expected to feature range bound to slightly firm tone on need based buying in the spot market.
