

Domestic Fundamentals:

- Mixed trend featured in various edible oils at different centers Saturday.
- CNF CPO at Indian port is quoted at \$720 per ton for May delivery. Moreover, RBD palmolein (Malaysian origin) CNF at Indian port is offered at \$720 per ton for May delivery. High sea duty paid CPO Kandla is quoted at Rs 562 per 10 Kg and for May delivery is quoted at Rs 562 per 10 kg. CDSO CIF at Indian port is offered at \$797 per ton for May delivery. Canola CIF is quoted at USD 795 per ton for May delivery.
- Weaker Ringgit will support palm oil in near term. Fall in stocks of palm oil will be limited in April in Malaysia on weak exports of palm oil in April and expectation of better production of palm on seasonal uptrend of production. However, palm oil production will be affected on lagged affect of El Nino. Exports of palm oil are expected to improve in May on lower prices of palm and demand ahead of Ramadan. Demand of palm can be adversely affected on lower difference with soy oil. Indonesia's demand of palm oil is undercut by Malaysia by offering lower priced palm products compared to CPO which may shift demand towards Malaysia. Prices are in range.
- Half of Argentina's soybean crop has been affected by incessant rains in April, may reduce soybean crop by 9 MMT. This will benefit US farmers which will move to US to look for soybeans supporting soybean complex prices. Sowing of soybean has picked up in US with pace of sowing above 5 year average but below last year pace. Sowing of soybean is expected to be higher than previously estimated due to higher soybean/corn ratio which favors soybean. Production of soy oil in US is expected to be higher in April on higher crush of soybean.
Lower premium of soy oil with palm oil will increase demand of soy oil from top consuming destinations supporting prices.
Rise in crude oil prices are expected to support soy oil prices in near term. Prices are in range.
- According to cargo surveyor Societe Generale de Surveillance, Malaysia's April palm oil exports fell by 6.8 percent to 1,088,052 tons from 1,167,775 tons in March. Top buyers were India at 207,000 tons (274,250 tons), European Union at 134,452 tons (166,553 tons), China at 124,368 tons (148,880 tons), United States at 80,015 tons (83,490 tons) and Pakistan at 39,890 tons (22,000 tons). Values in brackets are figures of last month.
- According to Energy Administration Agency (EIA), US February biodiesel production was unchanged at 105 million gallons. Soy oil was the largest feedstock with 395 million lbs used in February compared to 392 million lbs used in January, 51 percent of the total biodiesel used.
- According to Indonesian Palm Oil Association (GAPKI), Indonesia's palm and palm kernel oil exports fell 24 percent in March to 1.74 MMT from 2.29 MMT in February 2016. Top buyers were India at 429,910 tons (428,390 tons), European Union at 313,060 tons (359,730 tons) and Bangladesh at 62,890 tons (115,700 tons). Values in brackets are figures of February 2016.

Outlook: Edible oil basket is expected to feature weak soy, palm and rapeseed oil in the spot market, in near-term.
