

Domestic Fundamentals:

- Soy oil prices fell today pressured by weak demand. Palmolein prices were supported by firm demand despite
 weakness in BMD CPO. Mustard oil prices are supported by firm demand against weak stock position. Groundnut oil
 prices are pressured by weak demand.
- Palm oil- Palm oil prices are expected be underpinned by expectation of slow fall in end stocks of palm oil in Malaysia, rise in production of palm oil in Malaysia in March, imposition of export duty on exports of palm oil from Malaysia, firm ringgit and fall in competitive oils prices will underpin palm oil prices.
 - Ringgit has started appreciating and has broken 3.88 levels on higher crude oil prices and weakness in Dollar Index. There is expectation in market that palm oil stocks in Malaysia will show slow fall in coming months due to rise in production of palm oil and slow rise in imports.
 - Production of palm oil is expected to rise in March in Malaysia as seasonal downtrend of production diminishes. Production of palm oil in first 20 days of March rose, according to MPOA data indicating double digits rise in March.
 - Malaysia imposed export duty on crude palm oil starting April after three month suspension export duty to reduce palm oil stocks in the county. This step will lead price sensitive buyers to buy more in rest of March. Post March buyers will shift to lower priced Indonesian crude palm oil shipments.
 - Exports from Malaysia is expected to fall from April as buyers will move from Malaysia to Indonesia on imposition of import duty after higher exports in March before export duty kicks in.
- Soy oil- Soy oil prices are underpinned by weak demand in India, rise in end stocks of soy oil in US, pickup in harvest of soybean in Brazil and market selloff on trade war of US with China.
 - Demand of soy oil has failed to pickup after Holi festival as rise in prices of soy oil in 2018 bites into demand especially when rapeseed oil and sunflower oil trades at slight premium.
 - Soy oil stocks rose in US in February as reported by NOPA on higher crush of soybean and slowdown of demand.
 - Harvest has picked up in Brazil and is expected to accelerate as harvesting progresses. Harvest is progressing above 5-year average as the country expects to harvest record crop in 2017/18.
 - Forecasters are cutting Argentina soybean crop with Buenos Aires Grains Exchange and Rabobank reduces soybean crop estimate for 2017/18 below 40 MMT due to drought conditions in the country.
 - Markets are worried by escalation of trade war between US and China which could spillover to soybean complex prices.
- According to cargo surveyor Societe Generale de Surveillance (SGS), Malaysia's March 1-25 palm oil exports rose 10.6 percent to 1,190,261 tons compared to 1,076,563 tons in corresponding period last month. Top buyers are India at 313,233 tons (221,115 tons), European Union at 234,268 tons (305,721) tons, China at 106,864 tons (66,670 tons), Pakistan at 58,395 tons (27,000 tons) and United States at 42,575 tons (72,290 tons). Values in brackets are figures of corresponding period last month.

Outlook: Edible oil basket is expected to feature range -bound to weak sentiment in near term.
