

## **Domestic Fundamentals:**

- Edible oil prices witnessed weak tone at various markets centers on Thursday.
- Edible oils imports by India rose 3.37 percent in April compared to April 2017. Higher imports of edible oil were due to higher imports of CPO and sunflower oil. CPO imports rose on lower prices of domestic refined palm oil compared to ready to use imported palmolein. Sunflower oil imports rose due to low premium of sunflower oil over soy oil at CNF market and low premium of refined sunflower oil over RBD palmolein and refined soy oil in domestic market. Import duty on imports of sunflower oil is less than palm oil and soy oil which has led to higher imports of sunflower in oil years 2017-18 after rise of 43 percent in oil year 2016-17.
  - However, imports of edible oils are expected to taper in coming months due to depreciation of Rupee, high disparity in imports and increase of import duty on edible oils. Demand growth of edible oil will taper in oil year 2017-18 on higher prices of oils in domestic markets.
- According to Solvent Extractors Association (SEA), India's April edible oil imports rose 3.37 percent y-o-y to 13.69 lakh tons from 13.24 lakh tons in April 2017. Palm oil imports in April rose 3.59 percent y-o-y to 7.79 lakh tons from 7.52 lakh tons in April 2017. CPO Imports rose 9.0 percent y-o-y to 5.57 lakh tons from 5.11 lakh tons in April 2017. RBD palmolein imports fell 9.48 percent v-o-v to 2.10 lakh tons from 2.32 lakh tons in April 2017. Sov oil imports fell 13.11 percent in April y-o-y to 2.65 lakh tons from 3.05 lakh tons in April 2017. Sunflower oil imports rose 25.11 percent in April percent v-o-y to 2.94 lakh tons from 2.35 lakh tons in April 2017. Rapeseed (canola) oil import fell to 12.5 percent 0.28 lakh tons compared 0.32 imports in April 2017.
- According to Solvent Extractors Association (SEA), India's April edible oil stocks at ports and pipelines rose 10.7 percent m-o-m to 23.38 lakh tons from 21.12 lakh tons in March 2018. Stocks of edible oil at ports rose to 1,068,000 tons (CPO 480,000 tons, RBD Palmolein 205,000 tons, Degummed Soybean Oil 140,000 tons, Crude Sunflower Oil 220,000 tons and 23,000 tons of Rapeseed (Canola) Oil) and about 1,270,000 tons in pipelines (stocks at ports were 770,000 tons in March 2018). India is presently holding 37 days of edible oil requirement on 1st May, 2018 at 23.38 lakh tons compared to 33 days of requirements last month at 21.12 lakh tons. India's monthly edible oil requirement is 19.0 lakh tons.
- According to National Oilseed Processors Association (NOPA), U.S. April soybean crush rose 15.73 percent to 161.016 million bushels from 139.134 million bushels in April 2017. Crush of soybean in March 2018 was 171.858 million bushels. Soy oil stocks in U.S. at the end of April rose 7.5 percent m-o-m to 2.092 billion lbs compared to 1.946 billion lbs in end March 2018. Stocks of soy oil in end April 2018 was higher by 21.27 percent compared to end April 2017, which was reported at 1.725 million lbs.
- According to Malaysia Palm Oil Board (MPOB), Malaysia kept crude palm oil export duty unchanged at 5 percent for June. Export duty of palm oil is calculated at reference price of 2,421.19 ringgit (\$611.41) per ton. Tax is calculated above 2,250 ringgit starting from 4.5 percent to a maximum of 8.5 percent.

Outlook: Edible oil basket is expected to feature range –bound to firm sentiment in near term.
