

Domestic Fundamentals:

- Edible oil complex featured mixed trend in various markets centers on Saturday.
- Soy oil domestic prices fell on demand concerns and fall in international benchmarks while palm oil prices rose on firm demand prospects and rise in international benchmarks. BMD CPO rose on fall in end stock of palm oil in Malaysia and firm global demand prospects of palm oil from Malaysia. CBOT soy oil fell on expectation of slow demand of US soybean compared to South America origin soybean and fall in crude oil prices.
- India is expected to import 15% more sunflower oil due to firm demand from households as markets were closed due to lockdown. Further, Ukraine is expected to produce higher sunflower oil in 2019-20 compared to 2018-19. Global sunflower oil is expected to remain firm on firm global demand.
- Rapeseed oil prices in India is supported by firm demand due to being considered immunity booster. Prices have surged due to coronavirus and is expected to remain firm if coronavirus cases growth do not subside. However, it is trading at high premium over soy oil and palm oil.
- According to Malaysia Palm Oil Board (MPOB), Malaysia's May palm oil stocks fell 0.49 percent to 20.35 lakh tons compared to 20.45 lakh tons in Apr 2020. Production of palm oil in May fell 0.09 percent to 16.51 lakh tons compared to 16.53 lakh tons in Apr 2020. Exports of palm oil in May rose 10.69 percent to 13.69 lakh tons compared to 12.36 lakh tons in Apr 2020. Imports of palm oil in May fell 34.45 percent to 0.37 lakh tons compared to 0.57 lakh tons in Apr 2020. End stocks of palm oil fell compared to trade expectation of rise in stocks. Fall in stocks was mainly due to higher Malaysian domestic consumption and higher exports.
- According to cargo surveyor Societe Generale de Surveillance (SGS), Malaysia's June 1-10 palm oil exports rose 63.8 percent to 580,096 tons compared to 354,090 tons in corresponding period last month. Top buyers were China at 162,468 tons (93,315 tons), European Union 111,010 tons (66,220 tons), United States at 43,100 tons (22,850 tons), Pakistan at 28,000 tons (8,000 tons) and India at 26,000 tons (9,900 tons). Values in brackets are figures of corresponding period last month.
- Edible oil imports by India in May fell to lowest monthly imports in last 5 years. Majority of fall was due to fall in palm oil imports. In palm oil major fall was due to RBD palmolein imports which fell by more than 95 percent y-o-y. Imports of palm oil will pick up from June as demand of palm oil will improve due to gradual opening of India. However, RBD palmolein imports not be there as India has restricted refined palm oil imports. Soy oil imports fell in May but is still higher in oil year 2019-20. Sunflower oil imports rose due to firm demand and will end the year in surplus imports. HoReCa segment is the most hit segment which lead to fall in demand of palm oil.
- According to Solvent Extractors Association (SEA), India's May edible oil imports fell 4.014 percent y-o-y to 7.07 lakh tons from 11.81 lakh tons in May 2019. Palm oil imports in May fell 52.74 percent y-o-y to 3.87 lakh tons from 8.19 lakh tons in May 2019. CPO imports fell 15.9 percent in May y-o-y to 3.70 lakh tons from 4.40 lakh tons in May 2019. RBD palmolein imports fell by 95.68 percent in May y-o-y to 0.16 lakh tons from 3.71 lakh tons in May 2019. Soy oil imports fell 19.39 percent in May y-o-y to 1.87 lakh tons from 2.32 lakh tons in May 2019. Sunflower oil imports rose 1.5 percent y-o-y in May to 1.33 lakh tons from 1.33 lakh tons in May 2019. Rapeseed (canola) oil imports in May was zero compared to zero imports in May 2019. Sharp fall in imports in May was majorly led by palm oil especially RBD palmolein followed by soy oil. Fall in RBD palmolein imports were due to India restricting refined palm oil imports by cancelling all licenses.

Outlook: Edible oil basket is expected to feature sideways to firm tone in near term.
