

#### **Domestic Fundamentals:**

- Edible oil complex featured firm to uptrend at various markets centers on Tuesday.
- Soy oil refined domestic prices traded sideways at various locations. Indore prices closed on firm tone at Rs 1085 (1080) per 10 Kg. Degum prices at Kandla traded firm at Rs 1060 (1060) per 10 Kg at lower CNF indicting slow rise in demand. Higher CBOT may support CNF prices. CBOT Projections were trading up on Tuesday. Soy Oil futures Internationally fall down amid improvements in Crops in brazil and Argentina due to rains while domestic prices closed higher on limited buying due to higher prices. Values in brackets are figures of yesterday.
- CPO domestic prices traded firm at Rs 917 (917) per 10 Kg at Kandla and at India East coast. CNF prices were quoted up at Rs 928 (900) per 10Kg. Palmolein prices traded higher at various locations in India on slow rise in demand. Reduction in CPO import duty and increase in demand as restrictions are lifting in phases are favoring palm oil futures. Higher BMD palm oil will support India CNF. Indonesia increased export duty for CPO from USD 3 per ton to USD 33 per ton. Slashed CPO import duty by Indian Government favoured the International market and prices recovered after a week dip of prices. BMD CPO is expected to be supported by expectation of higher exports of palm oil from Malaysia in Dec and slow rate of rise of production of palm oil in Malaysia in Nov due to labor shortage despite seasonal uptrend of production. Firm demand from China and India will support prices. However, if markets of palm oil will fall, the fall will be limited to the above quoted conditions. Values in brackets are figures of yesterday.
- Sunflower Oil prices quoted steady at Rs 1220 (1220) per 10 Kg at Chennai market. Demand is rising slowly. Price is high due to tight supply and price rise in international market. Rise in price of competing oils may support sunflower oil price. Values in brackets are figures of yesterday.
- Rapeseed oil prices showed uptrend at various locations. Demand slowed down after Diwali whereas supply side is also
  low. Nafed is releasing supply slowing to fulfill for lean months. Prices are expected to show firm tone in coming days
  on fall in stocks of rapeseed oil in Indian markets.
- Cyclone Nivar heavily affected the standing crops in Andhra Pradesh. Groundnut crops were damaged heavily in Prakasam, Chittor, Guntur and Kurnool Districts of Andhra Pradesh. Around 1940 hectares area of groundnut crops were affected due to Nivar Cyclone.
- Government of India slashed CPO Import Duty from 37.5 percent to 27.5 percent amid surge in Palm Oil prices, stated by India Media Houses. No Government notification has been released yet, but it is said to be effective from today itself. Solvent Extractors' Association of India (SEA) had earlier requested Government to maintain the earlier duty structure for the interest of Oilseed farmers and Oilseed processing Industry. Government has left untouched the Import duty of Sun Oil and Soy Oil.
- China expect significant growth next year in Palm Oil consumption as Chinese Government phases out GM in Food Sector. China imports over 70 Million Tonnes of Soybean, out of which 90% forms GMO. A shift away from GMO products has been noticed in China and this will support Palm Oil demand in futures.
- According to Solvent Extractors Association (SEA), India's November edible oil stocks at ports and pipelines fell 1.49 percent m-o-m to 15.78 lakh tons from 16.02 lakh tons in October 2020. Stocks of edible oil at ports in November fell to 558,000 tons (CPO 295,000 tons, RBD Palmolein 13,000, Degummed Soybean Oil 151,000 tons, Crude Sunflower Oil 91,000 and Rapeseed Oil 8,000) and about 1,020,000 tons in pipelines. (Stocks at ports were 582,000 tons and in pipelines were 1,020,000 tons in October 2020). India is presently holding 25 days of edible oil requirement on 1st November, 2020 at 15.78 lakh tons compared to 25 days of requirements of 16.02 lakh tons on 1st October, 2020. India held 17.77 lakh tons of stocks in ports and pipelines on 1st November 2019. India's monthly edible oil requirement is 19.0 lakh tons
- According to United States Department of Agriculture (USDA) November estimate, U.S 2020/21 ending stocks of soy oil estimate has been increased to 1,864 million lbs compared to 1,775 million lbs in October estimate. Opening stocks are increased to 1,849 million lbs in 2020/21 from 1,740 million lbs in its earlier estimate. Production of soy oil in 2020/21 is kept unchanged at 25,265 million lbs. Imports in 2020/21 are kept unchanged at 350 million lbs. Biodiesel use in 2020/21 is kept unchanged at 8,100 million lbs. Food, feed and other industrial use in 2020/21 is kept unchanged at 14,900 million lbs. Exports in 2020/21 are kept unchanged at 2,600 million lbs. Average price range estimate of 2020/21 is raised to 32.50 cents/lbs from 29.65 cents/lbs in its earlier estimate.

Outlook: Edible oil basket is expected to feature firm tone in the near term.
