

**Domestic Fundamentals:**

- Edible oil Complex closed on sideways sentiments at various markets centers.
- Soy oil refined domestic prices closed lower than previous day at Indore market. Prices are moving in sideways trend as no official statement regarding stock limits is released. Government may soon announce stock limits as prices are still at upside despite revision in import duty. **Rumors** of government to suspend trading in edible oil on NCDEX and MCX is also pressuring rise in price. Argentina's rising Soy oil FOB prices will also support prices in international market on good exports demand.
- CPO prices closed on uptrend at bench market Kandla. Prices are moving in sideways trend as no official statement regarding stock limits is released. Prices corrected reacting to news of stock limits to be announced soon to curb rise in price. Government is planning to take further steps to ease prices of edible oils.
- Sunflower oil prices closed on firm tone at Chennai market. Price rise were supported by rising international prices and domestic festival demand. While import duty revision has weighed down price rise. Higher imports in September along with arrival of new domestic crop will pressure prices.
- Mustard oil prices closed on firm tone at the bench market. Mustard oil is supported by festival demand amid tight supply side. Mustard oil demand goes up in winter season, hence prices will remain elevated. Price correction in mustard oil is low compared to competing oils due to tight supply side. Mustard sowing has started in parts of Rajasthan, Madhya Pradesh, and other key growing areas.
- According to Malaysian Palm Oil Council (MPOC), Malaysia's crude palm oil production in 2021 is forecast to decline by 700,000 tonnes to 18.4 million tonnes due to a labour shortage and erratic weather conditions.
- According to Solvent Extractors Association (SEA), India's September edible oil imports rose 62.64 percent y-o-y to 16.98 lakh tons from 10.44 lakh tons in September 2020. Palm oil imports rose 96.26 percent y-o-y to 12.62 lakh tons from 6.43 lakh tons in September 2020. CPO imports rose 37.23 percent y-o-y in Sept 2021 to 8.44 lakh tons from 6.15 lakh tons in Sept 2020. RBD palmolein import rose to 3.97 lakh tons in Sept 2021 compared to 0.12 lakh tons imports in Sept 2020. Soy oil imports fell 34.45 percent in Sept y-o-y to 2.35 lakh tons from 3.16 lakh tons in Sept 2020. Sunflower oil imports rose 170.44 percent in Sept y-o-y to 1.80 lakh tons from 0.67 lakh tons in Sept 2020. Rapeseed (canola) oil stood at 20,215 tons imports in Sept compared to 17,233 tons in last year for same period.
- The government of India revised Basic Custom Duty and Agricultural Cess on Edible oil to curb rising prices. Despite consecutive revisions in import duties prices were moving up. Import duty on Crude Soy oil, crude palm oil, and crude sunflower oil is slashed to zero, while refined oil of soy oil, palm oil, and sunflower oil duty stands at 17.5 percent from 32.5 percent. Agriculture cess on crude palm oil is revised to 7.5 percent and cess on crude soy oil and crude sunflower oil stands at 5 percent. This led to a huge correction in the futures market on Wednesday.

**Outlook:** Edible oil basket is expected to feature sideways tone for the week.
