

Domestic Fundamentals:

Edible oil basket showed sideways sentiments at various market places. Soy oil and palm oil and mustard oil closed on firm sentiments. Major markets for sunflower oil and groundnut oil were closed on the occasion of Makar Sankranti.

Soybean oil

- Soy oil prices are range-bound at Rs. 1190 to Rs. 1210 from past 3 weeks. Prices are weighed between rising international soy oil prices and higher domestic soybean seed inventory.
- According to SOPA, soybean arrivals continue to decline for December to 11 lakh tons compared to 14 lakh tons in November. SOPA also estimated December'21 stock at 90.86 lakh tonne vs 65.93 lakh tonne previous year because of slow arrivals from farmers.
- CBOT soy oil market is supported by crop concern in South America due to hot and dry weather. Brazil's National agency CONAB has also lowered soybean production estimate to 140.5 MMT down by 2.3 MMT from previous estimate. Slow arrivals of seeds have led to high inventory will pressure prices in coming months.

Palm oil

- Palm oil domestic prices are moving with firm tone following rising international palm oil prices. BMD Malaysia on Thursday closed up as concern of labour problems in Malaysia is expected to persist which will affect output.
- According to Malaysia Palm Oil Board (MPOB), Malaysia's December Crude palm oil stocks fell 11.89 percent to 8.30 lakh tons compared to 9.42 lakh tons in November 2021. Production of crude palm oil fell by 11.26 percent to 14.51 lakh tons compared to 16.34 lakh tons in November 2021. Exports of palm oil in November fell by 3.48 percent to 14.14 lakh tons compared to 14.65 lakh tons in November 2021. Imports of palm oil rose to 1.02 lakh tons from 0.98 lakh tons of imports in previous month. Stocks of palm oil fell as expected by trade participants due to fall in production affected by flooding situation.

Mustard oil

- Mustard oil prices are currently supported over low supply side and firm demand from crushing mills.
- All India Arrivals fell by 30.06 percent from 8,65,000 bags to 6,05,000 bags in a previous week.
- COOIT expects mustard crop for Rabi 2022 at 100-110 LT compared to 85 LT last year.
- Heavy rains and frost in parts of Rajasthan and Punjab has affected standing mustard crop which was at flowering stage. Damages in mustard crop were reported from Jhalawar district of Rajasthan.

Outlook: Edible oil basket is expected to feature sideways trend with upwards bias for the week.
