

**Domestic Fundamentals:**

Edible oil basket is trading with sideways sentiments at various markets. Palm oil, Soy oil prices traded steady. Sunflower oil and Groundnut oil prices traded slightly upwards, while Mustard oil prices corrected downwards on Monday.

**Soybean oil**

- Domestic prices traded steady on Monday.
- Indecision between buyers and sellers is seen, as shortfall of domestic edible oil supply has supported the prices, however, expectation of revision in the edible oil import duty at downward side is pressuring prices.

**Palm oil**

- Supply side for palm oil is down, however expectation of downwards revision in import duty has pressured prices.
- Higher prices have also affected Palm oil's market share.
- MPOB have estimated a downwards trend in India's demand for current marketing year, as prices are too high. Around 5% demand is expected to be diverted to the competing oils.

**Mustard oil**

- Mustard Expeller oil prices traded corrected downwards, pressured by correction in prices of mustard seed as well as recent correction in competing oils.
- Prices may witness some downward correction; however low edible oil supply side is likely to push the prices at higher side.

**Outlook:** Edible oil basket is expected to feature sideways sentiment with upward bias for the week.
